Link Acid With Dance Tragedy

Officials Want Expert on
Explosives to Report
on Gas Fumes

Fortieth Victim Located:
Little Missouri Town
Attends Rites

WEST PLAINS (Mo.) April 15. (AP)—An hour after his funeral and burial this afternoon the body of J. W. Weiser, proprietor of the garage in which an explosion Friday night killed forty persons, was ordered examined for an examination to determine whether burns on his face were caused by fire or acid.

Prosecuting Attorney Green, in moving the order to Coroner Burns, said doctors had told him they believed the burns were caused by acid.

Prosecutor Green said he was not entirely convinced the explosion in the garage, which wrecked the building while a dance was in progress on the second floor, was caused by gasoline fumes. He said he would recommend an appropriate by the county to bring experts on explosives here to examine the ruins.

FORTIETH BODY FOUND
The fortieth body was found today. It is believed to be that of a stranger who had not been listed among the missing. He apparently was caught in a casket in an adjoining building which was destroyed. The finding of this body, along with the dismembered parts of another corpse late yesterday, raised the total from thirty-eight.

Meanwhile, the Little Missouri city today paid final homage to three of the victims caught when the explosion, which still is unexplained,

AMERICA LEADS IN AVIATION

Built More Commercial Air
Craft Than Any Other
Nation in 1927

NEW YORK, April 15. (Exclusive)—America assumed leadership during 1927 by flying and building more aircraft for this purpose than any other nation in the world, according to the aircraft year book of 1928, just released under auspices of the Aeronautical Chamber of Commerce of America, Inc.

It details that during the year American commercial airplanes flew 12,607,735 miles, carried 476,724 passengers, and 2,348,879 pounds of freight and express matter.

turned laughter and dancing into screams of death. Tomorrow still other funerals are planned, and on Tuesday, the unidentified dead will be buried.

DIFFERENCE OF OPINION
As the coroner's jury marked time, amazing evidence and waiting for recovery of injured to permit them to testify at reburial of the inquest Wednesday, rumors as to the possible cause of the explosion continued to spread.

Charles R. Bohrer, jury foreman, who has been making an extended investigation, is not willing to say definitely that the blast was not caused from gasoline fumes, as at first believed, but said this seems improbable to him.

While one of the witnesses at the inquest reported smelling gasoline fumes, those of the dancers who escaped death said they had smelled no gas. Bohrer contended a sufficient quantity of gas to cause such a terrific blast would have been detected by others in the dance hall.

**Thief Steals
New Airplane**

SAN FRANCISCO, April 15. (Exclusive)—R. S. Ribbey of Oakland had a new airplane Saturday. Today he has the wings. An airplane thief has the rest.

To police, sheriffs and constables of the bay region, Ribbey related that Friday a new Curtiss biplane was delivered to him. He parked it on a field at Russell City, just outside San Leandro. This afternoon when he went out to make a trial flight he found the fuselage and engine had been hauled away.

**Kern Rancher
Dies of Burns**

BAKERSFIELD, April 15. (AP)—Burns received when his home was ravaged by fire two weeks ago, proved fatal today for Joe Mosocco, 30 years of age, Kern rancher. Mosocco's 5-year-old son received minor burns but was released from the hospital the following day.

BAY CITY LAUDS NEWS BY PLANE

Buy Fresh Home Paper

Enterprise Rivals Trains;
Aids Business Men

(Continued from First Page)

them when they alighted from trains in San Francisco and Oakland. As a matter of actual fact the papers were here from two to five hours before the trains.

W. J. Beers, of 43 North Lake street, Los Angeles, was one of those who found it hard to believe his eyes when he departed from the Southern Pacific's Lark at the Third and Townsend terminals.

The train had left Los Angeles the preceding evening at 8 p.m., five hours before the trimmings of the Western Air Express home at Vall Field, Los Angeles.

"This is something new in service," he averred. "When I left Los Angeles last night for San Francisco, I thought I had actually severed contact with the city for the duration of my stay in San Francisco. Yet I walked out of the station this morning and bought a brand-new edition of the Times."

"Theatrical people plane and left the Western Air Express home at Vall Field, Los Angeles."

AMAZES CELLIST
Miss Antonette Frederiksen, former Angeleno, arriving to keep an engagement as solo cellist with the Adolphe Tandler string ensemble, thought of the matter first as "incredible." Then:

"Theatrical people plane and left the Western Air Express home at Vall Field, Los Angeles."

"Why, how can they do it? Surely that can't be a paper with late news in it as we are accustomed to obtain in the morning!"

REAL ENTERPRISE
But when informed that the paper had been flown into the Bay District by airplane, she enthused:

"That seems like the last word in enterprise to me."

On the streets of the downtown district, visiting Los Angeles business men stopped and listened with great interest in their expressions as they heard newsmen shouting: "Airplane edition of The Los Angeles Times."

And, naturally, they stopped to buy their favorite paper. And quite as naturally, commented which all reduced to the following comment: "Enterprising service."

GIVEN PRAISE**

(Continued from First Page)

Koehl in compliment to the natal anniversary of the pilot of the Bremen, Hans Von Huenefeld, brother of the backer of the Bremen flight, received a radio message from the Baron at Amoy Point, which read: "Made successful intermediate landing on other side. Cordial greetings."

(Signed) "GUNTHER."

**Ten Men Leap
From One Plane**

CHANUTE FIELD, RANTOUL, (Ill.) April 15. (AP)—Ten rookie parachute jumpers of the Army Air Corps technical school established a new world's record for successful leaps from an airplane today, when all ten of them leaped safely from a tri-motored sixteen-passenger Ford ship in 8.2 seconds.

The previous record was held by the marines at Quantico, Va., where nine men leaped successfully from one airplane.

Perfect flying conditions greeted the rookies and all of them landed to safe landings on Chanute Field after their jumps from the giant plane as it roared across the airport at nearly 100 miles an hour.

The plane was at an altitude of about 5000 feet when the jumpers made the leap.

BAY CITY GLORIES REVEALED

Song of Praise Sung for Great Center of North Whose
Development Strides Stir "Times" Writer

BY FRED ROGUE
"Times" Staff Representative

SAN FRANCISCO, April 15. (Exclusive)—Flags of seven nations were unfurled this morning to greet the rising sun as it looked down over Grizzly Peak on the bay of San Francisco and the gay, populous, thriving cities that line its shores. Its rays tipped with gold the crest of the waves rushing seaward with the receding tide through the portals of the Golden Gate, and bathed in light the gray sides and turreted guns of eighty-two units of the American Navy, the most powerful battle fleet anchored this morning in any harbor of the world.

Inspiring is the spectacle. No exposition period, and the old feud has not been reopened. I was surprised yesterday afternoon to see that the name of Spreckels had been chosen out of the marble tablets of the Trust Building that had been his financial citadel, and the name of Crocker chiseled in the granite of the City Hall. The present has been forgotten.

At that period so-called vested interests fought the establishment of the industries that might prove competitors. Industry was a kind of closed corporation.

That spirit seems in a large part to have been overcome. The Chamber of Commerce has experienced an infusion of new blood. San Francisco has learned to open its doors to the world. The Chamber of Commerce has experienced an infusion of new blood. San Francisco has learned to open its doors to the world.

GOAL OF ARGONAUTS
San Francisco: "The port of missing men," the goal of the Argonauts, the goal of the sailors of the rainbow in the day of '49, the city that fire and earthquake could not retard, but not destroy.

Kipling saw it when its population was less than the present population of Oakland, its sister city across the bay. He saw it as a "sea town," a "seaside town," a "city of the sea," and the progress of civilization through the living, and who sees it today marvels still.

San Francisco is built on a move hill. The city on the banks of the Tiber; and the summits of these hills are now capped by imposing edifices of cement, granite and marble. I first saw these hills thirty-five years ago; Nob Hill, Russian Hill, Alcazar Hill, Fisherman's Wharf, Presidio Heights, Ashbury Heights, Forest Hills, and rising to the west, like a barrier set to stem the rushing tides of the ocean, twin peaks.

MAGIC CITY, MAGIC SEA
When their summits are draped by banner of fog, when they are aglow by the rose and opal glow of the clouds of sunset and the windows of their tall structures damasked with the light of the stars, the city becomes a magic city on the shore of a magic ocean.

Progress has beautified San Francisco without robbing it of its charm. The last of the sand and loam where Dennis Kearney assembled his followers has disappeared. The water from where the city was founded thirty-five years ago by "seventeen distinct smells and several tastes" has been washed away by the sea. The city is now a city of granite and concrete, warehouses and office buildings, clean as though it were washed by the tides.

Some of the hills seem to have shrunk in height, for the skyscrapers loomed up from the lower hills above their summits. Three wide paved highways now connect the city on the land side with the peninsula. The harbor once offered by twin peaks and the beautiful Lake Merritt district beyond is no longer inaccessible.

Those who knew San Francisco at the time of the Panama-Pacific Exposition in 1915 would hardly recognize the city today. The round Golden Gate Park, and the western slopes visible from the Golden Gate. A new city has arisen, with a new skyline that, viewed from the bay, is more imposing than that of the Market-street district.

SKY'S LIMIT IN-BUILDING
In fifteen years the population of San Francisco has doubled. In modern construction it rivals, even challenges, Los Angeles. As San Francisco builds it grows. Within the city limits there is no height limit to building. In architecture and in power the sky is the limit.

The Russian Building, already completed, boasts of its thirty stories, the highest, loftiest structure of its kind west of Chicago. There are several buildings about twenty stories high. Three new ones in the Market-street district are now building.

San Francisco has passed through varied experiences, and has profited by them. The earthquake and fire tested the city out of its complacency and humility. Recently taught a generation how to hustle. The rebuilding which began then still is in progress, but it has been transformed into new buildings. I little dreamed when I stood on the fire-swept summit of Nob Hill twenty-two years ago and viewed from all ten of them leaped safely from a tri-motored sixteen-passenger Ford ship in 8.2 seconds.

The previous record was held by the marines at Quantico, Va., where nine men leaped successfully from one airplane.

Perfect flying conditions greeted the rookies and all of them landed to safe landings on Chanute Field after their jumps from the giant plane as it roared across the airport at nearly 100 miles an hour.

The plane was at an altitude of about 5000 feet when the jumpers made the leap.

GREAT LIGHT STILL GLOWS
Men said that twenty years would be necessary for it to recover, and the faint-hearted that it would never come back to its former reality. Those lights still glowed in the hearts of the men and women of San Francisco, and they are glowing yet; blended into a steady flame.

When I came here twenty years ago to engage in the newspaper business, San Francisco was enmeshed in a reform movement that had gotten into politics. A financial, industrial, social and political civil war was in progress. Men were using millions that should have been devoted to the rebuilding of the metropolis to destroy each other.

BATTLE OF GOLD LORDS
I recall that Patrick Calhoun and Rudolph Spreckels, each supported by interests controlling vast capital, were engaged in a war to the financial death.

Both have disposed of their financial interests—what was left of them—and departed. The two factions declared a truce during the

PROFITS GROW FOR PARAMOUNT

Greatest Progress Reported
for Past Year

Net Income Increases More
Than Two-Fifths

Eight Additional Theatrical
Houses Opened

NEW YORK, April 15. (AP)—Paramount-Panorama-Lasky Corporation made greater progress during 1927 than in any other year of its history, stockholders were told today in the annual report.

The income was \$4,007,596, or \$12.28 per share, as compared with \$3,000,000, or \$10.43 per share, in 1926, and was 41 per cent greater than 1926, the previous report year. Since the first of the year the corporation has paid \$5,100,000 in dividends and now has no bank loans outstanding.

During the year the corporation opened or leased six new theaters in this country and opened theaters for legitimate productions in London and Paris. Stimulation of local capital to build similar houses in other European cities will be sought.

Domestic business in 1927 was reported as 14 per cent greater than in 1926, and 11 per cent ahead of 1926, the previous record year, while foreign business increased 12 per cent over last year's record.

The corporation's common stock has increased from 1921 to 1924 to 1927 in 1927.

**AVIATION TO
BRING PEACE
TO NATIONS**

German Visitor Predicts
Universal Amity as Fruit
of Aerial Progress

SAN FRANCISCO, April 15. (Exclusive)—A. J. Winkler, who has been the world with its greatest opportunity for universal peace, in the opinion of Walter Bruch, German leather-goods manufacturer, who arrived in San Francisco today.

"My country, I know, is extremely enthusiastic over the difficult feat of flying over the world, and the success of the flight will be a great step toward universal peace," Bruch declared.

"Aviation is bound to bring the countries of every continent closer to each other—thereby making the problems of one nation more accessible to his neighbors."

To my mind the possibilities of aviation have been barely touched upon so far. In the next twenty-five years a great deal will happen, not the least of which will be the encouragement of universal peace and good will among all nations.

Germany rapidly is regaining its former position in the world of industry, Bruch says, and is developing aviation. Regular ocean travel by air in glider planes is a matter of only a few years, he declared.

**STEAMER LINE NAMES
PACIFIC COAST AGENT**

SAN FRANCISCO, April 15. (Exclusive)—R. A. Winkler has been appointed Pacific Coast passenger manager for the Hamburg-American Line to succeed T. H. Jacobs, resigned, according to advices from R. Loderer, vice-president of the company in New York.

Winkler will have charge of all Pacific Coast passenger matters for the line.

From 1914 to 1917 Winkler served in a similar capacity and since has been attached to the New York office of the company.

SACRED FIRE FLAMES ANEW

Jerusalem Again Scene of Picturesque Rites Drawing Throngs of Greek Catholics

JERUSALEM, April 15. (AP)—Greek Catholics observed the picturesque ceremony of the Sacred Fire yesterday marking the climax of the intense oriental observance of Holy Week. The basic idea of the ceremony is the symbolism of light springing from the sepulcher of the Savior to spread over and enlighten the world. The observance took place in the rotunda of the Church of the Holy Sepulcher, which is built over the place where Christ was interred until His resurrection.

Religious fervor reached a fever-pitch early in the morning as the dense crowds packed tighter and tighter into the courtyard of the church and on the roofs of nearby buildings. There was not a pin-nacle, ledge or projection, however, that was not covered with clinging human beings. Most of them were Christian pilgrims of all nations and all ages. A few were Jews and Moslems, who came as curious spectators. There were Russians and orthodox Arabs from every part of Palestine, Syria and Trans-Jordan.

On reaching the church the ecclesiastical procession, with banners waving, was directed by the police to the front of the tomb. A number of archbishops and arch-mandrites were in the front, while the patriarch himself, in white and gold brocade and crowned with a jeweled mitre, brought up the rear. The patriarch broke the seals of the door of the tomb and, accompanied by an Armenian archpriest, went inside. As they did so all the lights in the church were extinguished and a deep silence fell over the multitude, but only for a moment. A burning torch thrust out from a small hole in the tomb by the patriarch's quivering hand caused a mighty shout to go up.

This is the holy fire which most of those present believe came down from heaven. This is not because of any fraudulent pretense of the Greek Church, but because the crowd itself prefers, as in years gone by, to see a "miracle."

RUSH TOWARD LIGHT
The moment the fire appeared at the tomb a desperate struggle was started by those close at hand to be the first to light the candles they had brought with them from the holy fire.

In a moment, it seemed, the whole church and church yards was ablaze with lighted candles and the light was passed on from hand to hand.

Runners were sent out to carry the sacred light to Bethlehem, Nazareth and Hamallah. The whole crowd seemed to have gone mad while the light was being passed about. All were carrying candles. Those in the galleries or on ledges passed down their candles on bits of string for those below to light with the sacred fire. Thus the holy fire penetrated every corner of the vast, dark church, as it symbolically permeates the world.

In the course of its history the ceremony of the holy fire has caused the death of thousands of persons. In 1834 there were 300 spectators killed and 200 severely injured through being thrown down and trampled.

CHICAGO POLICE PLAY AT SIEGE

Dry Agents Intrenched in Federal Building

CHICAGO, April 15. (AP)—Myron Caffey, Federal prohibition agent, looked down from an eighth-story window today on a squad of police who have declared a "stage of siege" on Caffey's "home" in the Federal Building.

Police Captain Shomaker has a warrant for the arrest of Caffey, charged with an attempt to murder William Besty, Municipal Court bailiff, during a raid. The captain was ordered to serve the warrant by city authorities. He also was ordered by Federal authorities to keep off government property.

A virtual state of siege exists. Police surround the Federal Building, watching every exit and preparing to arrest Caffey the instant he leaves Federal territory.

City and Federal authorities have been engaged in a tug of war over the custody of Caffey for several days. After the shooting was quashed and the State's Attorney advised to have Caffey indicted in a State court.

Meanwhile Caffey, supported by U. S. Dist. Atty. Johnson and ten members of the Federal prohibition squad, has avoided arrest by remaining in the Federal Building.

San Francisco Araki will fly to New York by airplane. His trip from New York has been scheduled by steamer, train and airplane to London, Paris, Berlin, Moscow, Mukden and back to Tokyo. Araki has chosen the same route in the reverse direction. Araki will leave New York on the liner Aquitania after midnight the 18th inst.

Incidentally Araki's seaplane ride to Seattle from Victoria was his first air voyage. Before he reaches Tokyo, however, he expects to fly approximately 4000 miles over regular air lines. He estimated that the trip would cost \$2000 and said it would probably take him less than thirty-five days.

The two Japanese are competing for cash prizes. The winner to receive 3000 yen (about \$1500) and the loser 1500 yen.

JAPANESE IN RACE AROUND WORLD ARRIVES AT SEATTLE

Seattle, April 15. (AP)—On a dash around the world against time and a competitor, Toichiro Araki, a Japanese, arrived in Seattle this morning by seaplane from Victoria, B. C., and left this afternoon for San Francisco by train.

Araki and Ryunichi Matsui left Tokyo the 8th inst. in a race sponsored by the Jiji Shimpo, a Tokyo newspaper, to establish a new record in fast economical travel by ordinary, existing transportation methods.

Araki is traveling east and Matsui west. It had been planned for Araki to go to San Francisco on a regular air-mail plane, but as no plane was scheduled to fly south today he chose the Cascade Limited. From

Seattle, he expects to fly to New York by airplane. His trip from New York has been scheduled by steamer, train and airplane to London, Paris, Berlin, Moscow, Mukden and back to Tokyo. FIFTY-CHANNEL PLAN FAVORED

Radio Commission Declares Engineers' Unit for It

WASHINGTON, April 15. (AP)—O. H. Caldwell, Federal Radio Commission member, favors fifty cleared radio channels and is opposed to limiting the number to twenty-five. In a letter to W. R. McCame, owner of Station WHAM, Rochester, N. Y., made public today, the commissioner said the limitation to twenty-five would work a great hardship on local listeners and many fine radio stations.

Answering an inquiry of Mr. McCame in regard to a cleared channel for WHAM, Commissioner Caldwell said that radio engineers have unanimously approved the conclusions of the recent conference of radio engineers recommending fifty cleared channels and the proper sharing of smaller stations on the remaining forty channels as affording the best arrangement for good radio reception to the listening public under the restriction of the recent Davis-Dill equalization amendment.

San Francisco Araki will fly to New York by airplane. His trip from New York has been scheduled by steamer, train and airplane to London, Paris, Berlin, Moscow, Mukden and back to Tokyo. COOLIDGE LAUDS JACKSON AS UPHOLDER OF LAWS

"Old Hickory" Proved Possibilities of Self-Government, President Says in Accepting Statue

(Continued from First Page)
tory of the United States unless we look into account this outstanding quality," he said. "Our whole outlook has been greatly influenced by it. It is the complete antithesis of all systems of class and caste. The people who came here were seeking freedom of action and freedom of mind. The great revelation of our country has been that men are not born to servitude and obscurity. They are born to all the possibilities of a glorious station which can be won by their own efforts."

President Coolidge also praised Jackson's affection for his wife Rachel, in whose benign presence he said the turbulent warrior was his submission.

RECALLS ROMANCE
"If at times he was high tempered and overbearing," he said, "there is no finer romance in the history of our country than that which he lived through. He was a man of great devotion and affectionate consideration than that which he lived through. He was a man of great devotion and affectionate consideration than that which he lived through."

SOCIETY IN FLUX
"From this date until he was elected a member of the House of Representatives in 1823, he lived a life of great devotion and affectionate consideration than that which he lived through. He was a man of great devotion and affectionate consideration than that which he lived through."

OUTSTANDING QUALITY
"We would miss much of the significance of the life of Andrew Jackson if we did not look into account this outstanding quality," he said. "Our whole outlook has been greatly influenced by it. It is the complete antithesis of all systems of class and caste. The people who came here were seeking freedom of action and freedom of mind. The great revelation of our country has been that men are not born to servitude and obscurity. They are born to all the possibilities of a glorious station which can be won by their own efforts."

NATIONAL EPIC
"This is our national epic, exemplified in the lives of those whom we are most desirous to honor. It is a story of a man who was born to servitude and obscurity, but who by his own efforts won a glorious station. It is a story of a man who was born to servitude and obscurity, but who by his own efforts won a glorious station."

MORE DISPUTES
"His turbulent temper still followed him. New Orleans being under martial law, he was soon engaged in altercations with the civil authorities. He did not hesitate to arrest judges and the United States Attorney, when they interfered with his orders. A curious sequence followed. When he was arrested, he was released by the court. He was released by the court. He was released by the court."

MULLIFICATION CRISIS
"South Carolina had been very much opposed to the duties imposed by the tariff law. On November 24, 1823, the State passed an ordinance which nullified the tariff within its territory. This ordinance was nullified by the tariff within its territory. This ordinance was nullified by the tariff within its territory."

HIGH PLACE IN HISTORY
"History records him one of the high positions among the great names of our country. He was a man of great devotion and affectionate consideration than that which he lived through. He was a man of great devotion and affectionate consideration than that which he lived through."

BANK CRISIS
"His fight on the bank was not yet ended. His next move was an attempt to withdraw the public deposits. Two Secretaries of the Treasury refused to take this action, and being displaced in turn Taylor became Secretary of the Treasury. He was a man of great devotion and affectionate consideration than that which he lived through."

INDIAN WARFARE
"During the next few years he was engaged in the Indian war. He was a man of great devotion and affectionate consideration than that which he lived through. He was a man of great devotion and affectionate consideration than that which he lived through."

"I WISH I KNEW WHERE TO BUY—"

Every Monday The Times contains a feature, "Where to Find Things" showing where to obtain all sorts of goods and services. Many of these are out-of-the-ordinary, and a glance upon the list will prove time well spent.

1823, where he voted for increased tariff rates and certain internal improvements. He was in the Federal race in the national campaign in 1824, receiving ninety-nine electoral votes against eighty-four for Adams, forty-one for Crawford, and thirty-seven for Clay. This threw the election into the House of Representatives, where John Quincy Adams secured the votes of thirteen States against seven for Jackson and four for Crawford. The support of Clay went to Adams on the theory that a civilian was preferable to a military man. The appointment of Clay as Secretary of State was therefore severely criticized by the followers of Gen. Jackson. Following his custom he resigned from the Senate in 1825.

CHOSEN PRESIDENT
"In the campaign of 1828 Gen. Jackson achieved a remarkable victory, securing 178 electoral votes, while John Quincy Adams received only eighty-three. The popular vote was 68,000 for Jackson and 53,000 for Adams. Adams was re-elected Vice-President. He was a man of great devotion and affectionate consideration than that which he lived through."

BANK FIGHT
"The President was soon engaged in his great contest to prevent the recharter of the United States Bank. A great amount of battle was waged, and there was a broad appeal to class prejudice. Those supporting the bank were charged with representing a mercenary tendency in society intent upon creating an overmastering money power. Those who opposed it contended that they were defending the right of the people and resisting the encroachment of monopoly. At the same time they questioned the constitutional power of the Congress to establish a bank. The bill, however, was passed late in the spring of 1832, just as the Presidential campaign was beginning, and was promptly vetoed by the President in a message of great force and character."

MULLIFICATION CRISIS
"South Carolina had been very much opposed to the duties imposed by the tariff law. On November 24, 1823, the State passed an ordinance which nullified the tariff within its territory. This ordinance was nullified by the tariff within its territory. This ordinance was nullified by the tariff within its territory."

MEXICAN BLOW AT QUOTA FAILS

Immigration Conference Upholds Curb Right

HAVANA, April 13. (AP)—An attempt by the Mexican delegation to the international emigration and immigration conference to get into the platform of the gathering a denunciation of the quota laws of the United States failed yesterday.

The proposal came up before the

ence and was part of a general resolution to have the preceding conference adopt the migration principles presented by Mexico to the recent Pan-American gathering. But by this the proposal was cut down until only a mere skeleton of the original finally was adopted.

The portion aimed at the United States was that "none of the American States shall be permitted to encourage or assist in the immigration or emigration from their American States nor limit or determine the number of nationals it will receive from other American countries." The vote against this was decisive.

All committees labored to have their reports ready for the final session of the conference Monday.

CHURCHES FORM CONSOLIDATION

Methodist Congregations Join Hands

Merger Affects Organization at Santa Monica

To Build Imposing Edifice Immediately

SANTA MONICA, April 13.—Final consolidation of two of Santa Monica's most important churches, the First Methodist and Grace Methodist, was consummated at a banquet held in the office of the former congregation. Negotiations for the consolidation, which affects 1000 members, has been going on since January, and final details were worked out at a conference with Bishop Charles Wesley Burns, in charge of this area. The plan under which the two churches consolidate includes the erection of a new and imposing building on a lot at California avenue and Sixteenth street, on which an apse has already been secured, according to last night's announcement. A general committee and an executive committee with power to sell all the property of both churches has been appointed. Members of the latter being W. A. Arneson, George Kinsman, George R. McIntyre, Fred N. Jones, and William H. May. The general committee includes B. Y. McNary, John Sandman, Thomas D. Pitt, George R. Plonk, Ernest Mabry, R. A. Battles, Mrs. C. W. Reed, Mrs. Ida Davies, W. Eugene Lacy, Burdette Jones, William C. Montgomery, R. H. McAdams, Watson Schaefer, Mrs. V. E. Phillips, Mrs. O. C. Howland and Albert Dorfman.

For the present, both the old structures will be used, and the ministers of both churches will work as co-pastors. Rev. Horace B. Sellers, pastor of the Grace church, remaining in charge of the religious education work, in which he has had a large amount of special training. Dr. Harry W. White, pastor of the First Methodist Church, stated in his banquet address last night, that union of the two churches has been a long and arduous task because the work of both had been overlapping for some time. In this, Rev. Sellers bore his pastor out.

New Buildings to be Erected Along Border

SAN DIEGO, April 13.—New customs and immigration buildings at the Port of San Ysidro to cost approximately \$100,000, probably will be provided for soon as the result of requests made by the San Diego Chamber of Commerce.

Following considerable correspondence with the local chamber of commerce at Washington, the department at Washington reports that \$80,000 has been recommended for buildings at San Ysidro. Senator Shortridge has informed the local chamber that he is working on the matter. Several months ago during an inspection of conditions at the Port of San Ysidro by customs and immigration officials, the chamber pointed out the need for more modern buildings and also outlined the existing inspection group.

The fact that more people pass through San Ysidro than at any other point in the request for such an appropriation.

ORCHARD PRICES SET NEW RECORD

SANTA PAULA, April 13.—Two of the major ranch real estate deals in the Barstow region recently completed by E. J. Stewart, rancher, were the sale of eleven and one-half acres of citrus and purchasing of forty acres of oranges, involving more than \$120,000.

Stewart said the lemon and orange land, eleven and one-half acres in extent, to W. J. Young, the land adjoining his property, and to Harry Gage, for approximately \$64,000 and purchased forty acres of orange land near Piru for \$70,000. The Barstow parcel, containing eleven and one-half acres, was divided into seven and one-half acres of oranges, which were sold to Gage, and four acres of lemons purchased by Young. The amount involved set a record price for land in that territory. The Piru orange ranch purchased by Stewart was also one of the highest prices ever paid for land in that territory.

SCHOOL WEEK SPEAKER

CHINO, April 13.—Mark Koppel, superintendent of schools for Los Angeles county, has accepted an invitation to be principal speaker at the Chino Community Program, featuring observance of public schools week, Tuesday evening, the 24th inst., it was announced by McCall Aldrich, principal of Chino High School.

Miss Iola Drobosky, winner of Chino's elimination event for the National Oratorical Contest, will deliver her winning oration.

INCREASE CAPITAL STOCK

LINDSAY, April 13.—The Lindsay Home Telephone and Telegraph Company has been granted permission by the Railroad Commission to increase its authorized capital stock from \$25,000 to \$100,000, to be divided into 1000 shares at \$100 each. A total of \$40,000 worth will be issued at the City Council at the next meeting. This will be at the first session of the new city officials elected last Monday.

TO REIGN AT FRESNO'S ANNUAL EVENT

Rules at Rialto Fiesta. San Joaquin Valley maid who compose the royal party at annual holiday.

JOB FOR NEW COUNCIL

Hermosa Beach Continues Fight Against Improvement Scheduled to Cost \$313,000

HERMOSA BEACH, April 13.—Indications that the smoke of battle which has hung over the improvement proceedings of Hermosa Beach has not yet cleared away are brought out in the filing of a referendum petition demanding the revocation of the city's contract with the Pacific Construction Company which already has the paving work well under way. The petition, which its sponsors say, is sufficient, will be the first major matter which will come before the new City Council which is to be seated at the special meeting tomorrow night.

LION TO CONTINUE IN INDIA

Lecturer-Travelers Says Time Not Ripe for England to Quit Rule of Country

PASADENA, April 13.—The time has not yet come for the British government to relinquish its control in India, according to Charles E. Jones, South Pasadena educator, who last night addressed the Twenty-Third Club in this city. Mr. Jones was born in India and except for a few years, he has lived there all his life.

He expressed doubt that the time will ever come when the Mohammedans and Hindus will forget their religious differences and co-operate in running the government. The cause he also sees as a stumbling block in the ruling of the nation.

"With a glorious background of achievement in art, poetry, philosophy and music, India presented a peculiar problem in the slow development of industry and increased living standards," he declared.

HOOPER BOOSTERS FORM ACTIVE CLUB

INGLEWOOD, April 13.—A number of prominent Inglewood residents organized a Hooper Club at an enthusiastic meeting at the Chamber of Commerce last night. Fred R. Fardeas was elected president; Lee S. Kucker, secretary, and City Treasurer Harry R. Spaulding, treasurer.

A Hooper mass meeting will be called here soon, it was announced by Mr. Fardeas, the exact date to be announced later. Every service club and practically every lodge and other civic organization in the community was represented in members attending last night's gathering, it was said. City Engineer Willis S. Peffer was appointed chairman of the mass meeting.

HIGH SCHOOL DEBATE

ONTARIO, April 13.—Colton and Chaffey Union High School debaters are preparing for the next district debate, which is to be held May 4. Question for debate is "Resolved—that the government should operate Muscle Shoals."

Chaffey debaters are Doris and Elizabeth Bond and Doris Stanford.

ATTORNEY RESIGNS

HUNTINGTON PARK, April 13.—Archibald G. McVay, who has been City Attorney since July 8, of last year, yesterday presented his resignation to the City Clerk which is to be presented to the City Council at the next meeting. This will be at the first session of the new city officials elected last Monday.

PREACHER TALKS AT BANKERS' MEET

CUCCAMONGA, April 13.—Victorville bankers will be hosts to the bankers of San Bernardino county, with a banquet and program, the 21st inst., at the new Home Telephone Company's building and to have asked an employee where the police station was located. He is said to have been in a nervous condition at the time.

Mr. De Lacy, shortly before the accident, is reported to have called at the new Home Telephone Company's building and to have asked an employee where the police station was located. He is said to have been in a nervous condition at the time.

GIRLS' GLEE CLUB TO GIVE CONCERTS

WHITTIER, April 13.—Musical interest in Whittier will center this week in the "Home" to be given by the Whittier College Girls' Glee Club Friday and Saturday evenings at the home of one of the most successful seasons the organization has ever known.

During the spring vacation, the club went on the annual tour, which took the songsters as far north as Stockton and Berkeley, their itinerary embracing many of the larger cities and towns, singing in churches, high schools and before service clubs. At Stockton they were given an ovation by the Kiwanis Club and their reception at Berkeley was highly gratifying.

Prof. Howard L. Backett, head of the department of vocal music at Whittier College, is the director of the glee club. Miss Isabel Mackenzie is president, Miss Evelyn Starbuck, secretary-treasurer, and Miss Lois Warner, business manager, of the organization.

OPEN NEW BRANCH OF RALPHS' STORES

HUNTINGTON PARK, April 13.—The Ralphs Grocery Company of Los Angeles, has everything in readiness for the opening of their eleventh store, which will be the Huntington Park store, the opening being at 8 o'clock Monday morning.

This store is being established for the company's business in the Huntington Park district. The Ralphs company, the latter part of last year, purchased a building site at Florence avenue and Rialto street, in the southern part of this city and recently completed its new \$25,000 store building.

OFFICERS STAGE RAID

HANFORD, April 13.—In a raid last night by Federal Inspector H. G. Schultze assisted by local officers on a pool hall at 519 West Seventh street, conducted by Garza & Olivas, C. Garcia, one of the proprietors, was found to have a small quantity of marihuana or Mexican hemp in his possession and he was lodged in the County Jail pending filing of complaint.

FORMER OFFICER CAUSES ARREST ON SUSPICION

HUNTINGTON PARK, April 13.—Believed to be wanted by police as a fugitive, Everett Manning is in the County Jail, the result of an incident in which Harry Leland, a former policeman of Huntington Park, did a little police work. Leland resides on South Santa Fe avenue, and he saw a stranger drive on a lot during the morning with an automobile. The man left the machine, and it remained there several hours. During the man's absence, Leland made an investigation, finding the car was a Chrysler, belonged to a Hudson car, owned by a man in San Diego. The driver, Charles Leland, of this city, upon it, Leland called the deputy sheriff's office and the man was taken in custody. He first gave his name as "Manning," and then Everett Manning.

PREACHER TALKS AT BANKERS' MEET

CUCCAMONGA, April 13.—Victorville bankers will be hosts to the bankers of San Bernardino county, with a banquet and program, the 21st inst., at the new Home Telephone Company's building and to have asked an employee where the police station was located. He is said to have been in a nervous condition at the time.

Mr. De Lacy, shortly before the accident, is reported to have called at the new Home Telephone Company's building and to have asked an employee where the police station was located. He is said to have been in a nervous condition at the time.

BUSSES OPERATE TO THE BEACHES

SANTA MONICA, April 14.—Santa Monica's new municipal bus line started operating at 5:15 this morning, with buses running on a fifteen-minute schedule from the Santa Monica terminus, Broadway and Fourth streets, to the Pacific Palisades terminus of the Los Angeles yellow carline. The route is over Pico boulevard, with two loops over important streets in Santa Monica. A fare of 10 cents each way is charged, with the 5-cent fare on the Los Angeles cars, makes a total fare of 15 cents each way between downtown Santa Monica and downtown Los Angeles. A commutation rate of 25 cents for a round trip between the terminus is made on ten-ride commutation books for families.

KILLS SNAKE WITH ARROW

LINDSAY, April 13.—Glen Smith of Lindsay, archery enthusiast, has added to his fame with the bow and arrow by the killing of a rattlesnake a few days ago in Fraser Valley. This ancient sport has been revived to quite a degree in this section this spring.

RECREATION NECESSARY

SANTA MONICA, April 13.—The necessity of recreation in crime prevention and developing the ideals of good citizenship should be universally known. Commissioner Frank A. Helton of Santa Monica told a large audience yesterday at the final session of the three-day conference of the Playground and Recreation Association of America, Western Division. The city official expressed the opinion that playgrounds should be controlled by the schools because they are more alive than municipal administration to the needs of playground work.

George Helton, Los Angeles Superintendent of Recreation, presided at the closing session. E. B. DeGroff, Boy Scout executive of Los Angeles, presided at the closing noonday luncheon.

C. F. Weiland, assistant Superintendent of Parks and director of recreation at Portland, Or., made a plea for adequate support of

FIGHT FOR FREEDOM OF WOMAN

San Diego Lawyer Appeals to State Supreme Court to Lessen Sentence

SAN DIEGO, April 13.—Vivian Walker, "faith healer" of San Diego, who is in State prison, where she has served two years of a seven-year sentence, may win her freedom without serving the rest of her term. Capt. E. J. Kelly, her attorney, plans to leave today for San Francisco to argue before the State Supreme Court a motion for a writ of habeas corpus asking her immediate release.

Mrs. Walker was sent to State prison from this county on conviction of the crime of obtaining money under false pretenses. She also had been charged with a "prior conviction," which was admitted. Later, when the Prison Board fixed her sentence, she was given two years for the fraud and five years additional on the "second count."

Capt. Kelly will argue that while it was entirely proper for the prosecution to bring the additional charge of a "prior conviction," it was an apparent error of the Prison Board to add five years to her prison term because of that fact. "She paid her debt to society by serving the term prescribed by law for her first offense," he argued. "It would be a gross injustice to make her serve additional time for a debt she already has paid."

Mrs. Walker was in the public eye for some time when she was arrested on a charge of swindling an aged San Diego couple out of money she told them was to be used in building a great "faith-cure" sanatorium in that section of the city.

Former Officer Causes Arrest On Suspicion

HUNTINGTON PARK, April 13.—Believed to be wanted by police as a fugitive, Everett Manning is in the County Jail, the result of an incident in which Harry Leland, a former policeman of Huntington Park, did a little police work. Leland resides on South Santa Fe avenue, and he saw a stranger drive on a lot during the morning with an automobile. The man left the machine, and it remained there several hours. During the man's absence, Leland made an investigation, finding the car was a Chrysler, belonged to a Hudson car, owned by a man in San Diego. The driver, Charles Leland, of this city, upon it, Leland called the deputy sheriff's office and the man was taken in custody. He first gave his name as "Manning," and then Everett Manning.

KILLED IN AUTOMOBILE ACCIDENT

PASADENA, April 13.—Charles De Lacy, 76 years of age, died today in the Pasadena Hospital, where he was taken late last night after being run over by an automobile at the intersection of Green street and South Oakland avenue.

Mr. De Lacy, shortly before the accident, is reported to have called at the new Home Telephone Company's building and to have asked an employee where the police station was located. He is said to have been in a nervous condition at the time.

NEW CITY OFFICERS TO TAKE UP WORK

HUNTINGTON PARK, April 13.—The newly elected officers chosen at the city election last Monday are expected to take their seats tomorrow night, entering their four-year terms to which they were elected.

The new officers chosen are O. E. Benedict and Elmer E. Cox, City Council members; William P. Mahood, City Clerk, and William A. Ross, City Treasurer. Mr. Ross having been re-elected, the terms of M. A. Blanchard, as Mayor, and Elmer E. Kjellgren, as City Clerk, will expire.

The election of last Monday brought out the greatest number of voters at any city election contest ever held in Huntington Park. The two successful candidates for City Council received around 4000 votes each, which was about a 4-to-1 vote, the highest vote cast on the opposing ticket being for Mr. A. Blanchard for re-election.

Mr. Benedict headed the Citizens' League ticket, while Mr. Blanchard headed the Civic League ticket.

OFFER PRIZE FOR BEST CITY SLOGAN

INGLEWOOD, April 13.—Paul M. Armstrong, president of the Los Angeles Advertising Club, will serve as one of a committee on a slogan contest instituted by the Inglewood Chamber of Commerce. The contest closes at 8 p.m. next Saturday, the 21st inst., it is announced by Chairman A. E. Chamberlain of the chamber's publicity committee. A prize of \$25 in gold will go to the winner.

The slogan must contain not more than eight words and should be as brief and as descriptive of the advantages and spirit of the community as possible. Contestants must be residents of Inglewood or students at Inglewood Union High School, many of whom live outside of Inglewood.

Smallest Still Found in "Y"

SAN DIEGO, April 13.—What is thought to be the smallest still ever confiscated by police here has been found in the locker of the Army and Navy Y.M.C.A. by Detective Little and O'Connor. The owner of the device, O. T. Miller, 26 years of age, taller, is in the City Jail today, where he is charged with violation of the Wright act and possession of a still.

Found in a duffle bag, the still was made from the base of an old blow torch with several thin, closely spaced copper tubes attached. The still was found in Miller's possession. It is the opinion of the police that the still had been used to produce a small quantity of alcohol which he had been selling to other shipmates at a high price.

VIOLATED GAME LAW

VENTURA, April 13.—Three 15-year-old youths were brought before Judge Malvern Dimmock here today on charges of violating game laws. The charge was for fishing trout out of season. Deputy State Game Warden R. E. Perry said he caught the boys fishing in the deep pool back of the Southern Counties gas plant in Ventura county. The trout season opens May 1.

CHUCKLES from LIFE

Outguessing 'em
I have solved the parking problem!
Quite inadvertently it came to me the other day, while I frankly sought a vacant space not prohibited by law, service station, hotel or streetway.

The simplicity of it caused me to marvel at my utter idiocy in not figuring it out before.
But now I have it!
No more will I burn gallons of gasoline in a vain search for the elusive vacancy. Never again will I rack and twist my shoulders, strain my neck and wrench my back in attempting to wedge into a too-short parallel space. Henceforth I shall have no work for my chiropractor. No more will I spar for an opening.

with a decrepit 1918 silver, suffering thereby a denied fender and the loss of the parking space, and, incidentally, of the last vestige of my gentility.
It is all settled now; I shall give the matter no further concern. I've sold my car.

POTRERO FIELD AGAIN TO FORE

Associated Production Test of Well No. 2

Result Kept Closely Guarded by Operators

Barrel Says 500-1000 Barrel Output Obtained

Another chapter in the long history of the Potrero field was started by the Associated Oil Company, Thursday, when it produced a test in its Cypress No. 2. Just what the operation will disclose is still an unknown quantity, even to the Associated Oil Company, which declines to give information in regard to the test.

The Potrero district has been a source of interest, whenever there has been the slightest reason for interest, ever since the first development started at its seven-acre site about the last of the Cypress No. 2. It has been carefully watched by the city and the state, and the test of the well, which is being conducted by the Associated Oil Company, is being watched by the city and the state.

The test of the well continues, and the city and the state are watching it with interest. WEEK'S EVENTS AT SEACLIFF

Possibilities of 3200-Foot Sand Proven by Two Completions; Test of 3900 Level Begun

Confirmation of the commercial possibilities of the 3200-foot zone first discovered by the Milroy Oil Company in its No. 3 well in the Seaclyff field, and the beginning of a test of the 3900-foot zone were the principal developments in that field last week.

The General Petroleum Corporation brought in two new wells in the Milroy zone, one on the Hobson lease, and one on the Trumbull lease, with an aggregate initial output of practically 2000 barrels a day. The oil was clean out in each case being less than 3 per cent.

The Pan-American Petroleum Company is making a production test of its Hobson-State No. 2 well in the 3900-foot zone, having received a provisional approval of the water shut-off. The well should show definite results of the test by today. Bottom of the hole is at 3900 feet, and it is reported that the drill went through enough oil sand to insure commercial production.

An interesting completion in the Seaclyff field during the week was the old Hobson No. 1-B, which was drilled to a depth of 3200 feet, and was completed with a water shut-off. The well was drilled to a depth of 3200 feet, and was completed with a water shut-off.

The Hobson No. 1-B was drilled to 3200 feet and went through some good oil sand, but was in mechanical difficulties for more than a year. A "shot" was put in last Wednesday to clear away "junk," and immediately the well began to flow clean oil at the rate of about 100 barrels a day.

A remarkable feature of the project is that although none of the cement jobs showed a satisfactory water shut-off, the oil is the cleanest that has been found in the field, and is of the highest gravity, testing about 31 deg.

It will be a week before the last completed and given a production test before being shut in. Officials of the company say.

Both Milham and Southern California Gas Company officials are said to be considering the advisability of laying pipe lines to northern cities of the state.

A. B. McElroy of the Southern California Gas Company declared today that if the supply of gas will warrant the expense, San Francisco and other cities in the region will get natural gas through pipe lines from the Goose Lake area.

Oil operators of Southern California have just worked out a gigantic plan for the handling of waste waters in eight different oil fields, and in injury to vegetation and field crops.

Perfection of this plan has just been announced by the Chamber of Mines and Oil, through which the numerous operators have been working for fifteen months to develop two co-operative companies, the purpose of which is to protect private and public property now and at all times in the future against waste waters from oil fields.

Contracts have just been let by the Waste Water Disposal Company, representing fifteen extensive oil operators, for the construction of a section of the waste water disposal system, which will be a part of the Brea Canyon, Olinda, East Coyote and Richfield oil fields, removing the oil, and diverting the clear water into the ocean at a point near Newport Beach, via the Orange county sewerage-disposal system.

It will cost the oil operators \$175,000 to build this system, and another \$100,000 to hook up their respective properties with the drain. When it is done its load will amount to something like 10,000 barrels of water a day, but its peak capacity will be 25,000 barrels a day, so it is considered adequate for all time to come.

Eight towns in Orange county own a large sewerage system, which serves Fullerton, Anaheim, Orange, Buena Park, Santa Ana, Placentia, La Habra and Garden Grove. Permission was obtained from them, by the operators, and with the consent of state and county health authorities, to hook up with this sewer as a means of disposing of waste water.

The Waste Water Disposal Company will run its waste water from four fields into a settling pond 450 feet long and 170 feet wide, on a five-acre site which has been equipped with tanks, pump houses and other operating equipment. This pond will be divided by a number of baffles. At the bottom of the baffles will be openings through which the water can be drawn off.

The oil runs to the top, in such a settling pond, and the water and sediment can easily be drawn off without disturbing the oil, and the oil can be syphoned off and sent to the refinery or tank. In this way nothing but pure water will be turned into the sewer, and instead of being detrimental to the sewer, this water, according to sanitary engineers, will actually prove of benefit to it, because the salts which it contains will have a cleansing influence.

Arrangements have been made to flow waste waters through the sewer only at night. Thus the waste waters will not load up the system during the daytime when heavy do-

OLD BOWIE TEST IN GAS SHOWING

Pressure Forces Water Over Top After Shut-off

Considerable Oil Declared to be in Evidence

Whitlock Well Near Pima in Promising Sand

BOWIE (Ark.) April 15. (Exclusive)—The old Bowie No. 1 well now is reported by Manager W. S. Funk to have developed a strong gas pressure, forcing water above the surface after a successful shut-off and drilling of the cement. Considerable oil is declared in evidence. This well is only four miles from this point.

Complicated by great flows of pure water, gas and oil discharges are reported from the Whitlock well, in the local field in the Underwriters' syndicate No. 1 well, near Pima, and in the Trumbull No. 2 well in the Pima field. The latter two are down about 3100 feet, where an oil sand has been cut, with a tremendous flow of gas. Gasing has been ordered for the Pima wells. In the Underwriters' well, it is asserted, oil has been flowing with the water for sixty days.

Local residents, headed by Rev. Hardie Connor, have taken over the Whitlock well, a few miles from Willcox Station, and are planning resumption of the well. It was at Willcox that the only commercial production of oil ever was known in Arizona, from a shallow stratum below the railroad grade. The oil is assumed to have been a seepage around the pipe of the railroad water well.

PREPARING FOR TEST Zurich Oil Drilling Cement Out of Belridge Project

BELEDGE, April 15. (Exclusive)—Actual drilling out of the cement is under way in the Belridge oil well on Sec. 18, 28-22, in the Belridge field. Drilling was stopped at 2730 feet, and a six and one-quarter-inch casing was set and cemented through the perforations at 1800 feet. The well developed small showings of gas and oil, and the test. The company has staked a location for a new well on the northeast corner of Sec. 30, 28-22.

ADOPT WASTE WATER PLAN Operators Perfect Co-operative System Costing Huge Sum for Proper Sanitation of Fields

Oil operators of Southern California have just worked out a gigantic plan for the handling of waste waters in eight different oil fields, and in injury to vegetation and field crops.

Perfection of this plan has just been announced by the Chamber of Mines and Oil, through which the numerous operators have been working for fifteen months to develop two co-operative companies, the purpose of which is to protect private and public property now and at all times in the future against waste waters from oil fields.

Contracts have just been let by the Waste Water Disposal Company, representing fifteen extensive oil operators, for the construction of a section of the waste water disposal system, which will be a part of the Brea Canyon, Olinda, East Coyote and Richfield oil fields, removing the oil, and diverting the clear water into the ocean at a point near Newport Beach, via the Orange county sewerage-disposal system.

It will cost the oil operators \$175,000 to build this system, and another \$100,000 to hook up their respective properties with the drain. When it is done its load will amount to something like 10,000 barrels of water a day, but its peak capacity will be 25,000 barrels a day, so it is considered adequate for all time to come.

Eight towns in Orange county own a large sewerage system, which serves Fullerton, Anaheim, Orange, Buena Park, Santa Ana, Placentia, La Habra and Garden Grove. Permission was obtained from them, by the operators, and with the consent of state and county health authorities, to hook up with this sewer as a means of disposing of waste water.

The Waste Water Disposal Company will run its waste water from four fields into a settling pond 450 feet long and 170 feet wide, on a five-acre site which has been equipped with tanks, pump houses and other operating equipment. This pond will be divided by a number of baffles. At the bottom of the baffles will be openings through which the water can be drawn off.

The oil runs to the top, in such a settling pond, and the water and sediment can easily be drawn off without disturbing the oil, and the oil can be syphoned off and sent to the refinery or tank. In this way nothing but pure water will be turned into the sewer, and instead of being detrimental to the sewer, this water, according to sanitary engineers, will actually prove of benefit to it, because the salts which it contains will have a cleansing influence.

Arrangements have been made to flow waste waters through the sewer only at night. Thus the waste waters will not load up the system during the daytime when heavy do-

ADOPT WASTE WATER PLAN Operators Perfect Co-operative System Costing Huge Sum for Proper Sanitation of Fields

HELIUM CONTRACT CLOSED

Construction of Government Project at Amarillo, Tex., Announced by Bureau of Mines

AMARILLO (Tex.) April 15. (Exclusive)—The final closing of a contract with the Amarillo Oil Company of Amarillo, Tex., which, it is thought, will greatly increase the available supply of helium—that rare noninflammable gas required for the operation of dirigibles—is announced by the United States Bureau of Mines. Under the terms of the contract, the bureau will undertake the extraction of the helium from natural gas at the company's leases on the Cliffside structure in Potter county, Texas. A helium plant for that purpose will be constructed by the government at Amarillo.

The Bureau of Mines, which has always played a prominent part in the development of helium for use in dirigibles, has had jurisdiction over production and conservation of helium for the War and Navy Departments since July 1, 1925. All of the helium produced by the government is now being used in the dirigibles. The helium is produced by the gas from the Cliffside structure in Clay county, Texas, at the United States helium production plant near Fort Worth, Tex. As this source of supply is no longer capable of meeting the needs of the War and Navy Departments, the Bureau of Mines has been working toward the development of other fields.

Knowing of the government's need for increased supplies of helium, the Amarillo Oil Company offered to place gas from its leases on the Cliffside structure at the disposal of the government and to provide for the disposal of the gas from which helium has been extracted. After a thorough study by Bureau of Mines engineers at Scott Field, Ill., and Lakehurst, N. J., for the War and Navy Departments, respectively, for purification of helium after use in dirigibles. At the minimum temperature to be used in the plant, atmospheric air is a liquid, mercury and carbon dioxide are solids, lead and copper take on properties of steel and rubber is almost as brittle as glass.

The low temperature to be used in the plant will be produced by compression, cooling and subsequent expansion of gases following practices similar to those used in the Fort Worth production plant and the purification plants which have been designed and erected by Bureau of Mines engineers at Scott Field, Ill., and Lakehurst, N. J., for the War and Navy Departments, respectively, for purification of helium after use in dirigibles. At the minimum temperature to be used in the plant, atmospheric air is a liquid, mercury and carbon dioxide are solids, lead and copper take on properties of steel and rubber is almost as brittle as glass.

WELL NEAR DELANO IS SHALE AND SAND DELANO, April 15. (Exclusive)—Going through brown shale at a depth of 5000 feet the North American Consolidated Oil Company continues to make hole in its Wallace 1-A well on Sec. 8, 28-33, near Delano. The shale is streaked with gray sand.

NEW ISSUE \$2,250,000 FAIRMONT HOTEL COMPANY

First Mortgage 5½% Serial Gold Bonds

Dated April 15, 1928. Due serially October 15, 1929 to 1949, inclusive, as shown below, interest payable April 15 and October 15 of the American Trust Company, San Francisco, and the Pacific Coast Trust Company, New York, without deduction for normal Federal income tax up to 2½%, insofar as lawful. Redeemable in whole or in part on any interest payment date, on thirty days' notice, at 102½% during the first year, and thereafter at a premium of ½% of 1% for each year of unexpired life, but not exceeding 5%. Coupon bonds of \$1000 and \$500 denominations, negotiable as to principal.

AMERICAN TRUST COMPANY, SAN FRANCISCO, Trustee Application has been filed with the Superintendent of Banks to certify these bonds as a legal investment for California Savings Banks and these bonds are offered subject to the issuance of his certificate.

Exempt from Personal Property Taxes in California

Property. The Fairmont Hotel occupies the entire city block bounded by California, Powell, Sacramento and Mason Streets. It is one of the leading hotels in the United States. The building, containing 500 guest rooms, is of fireproof construction, and commands an unsurpassed view of the City of San Francisco and of San Francisco Bay.

Value. The properties of the Fairmont Hotel Company were appraised for \$5,000,000 in 1922. Additions and betterments since that date, less depreciation, amount to \$300,000, giving a total present value of \$5,300,000, or 2.35 times this issue. These values do not take into consideration any appreciation in land values, although the Fairmont site was appraised in 1926 for \$1,000,000, compared with \$600,000 in 1922. Approximately \$250,000 from the proceeds of these bonds will be spent for improvements to the hotel property.

Security. These bonds will be a direct obligation of the Fairmont Hotel Company, secured by a first (closed) mortgage upon all of its properties—land, building and equipment.

Earnings. Average annual earnings for the past five years, adjusted to give effect for the full period for revenues from improvements made in 1926 and 1927, before depreciation, available for the payment of interest on these bonds, have been \$309,000, or more than 2.3 times maximum interest requirements. Over 66% of the rooms are occupied by permanent guests, and for the past three years the average of rooms occupied has been in excess of 88% of capacity.

Purpose of Issue. The proceeds of this issue will be used to retire the Company's outstanding First Mortgage 6% Bonds and Secured 6½% Notes and for improvements to the hotel property, consisting of additional interior shops and roof bungalows.

Insurance. The Trust Indenture under which these bonds will be issued will require that the Company provide for fire and earthquake insurance, with loss payable to the Trustee for the benefit of the bondholders. Title insurance in the amount of the outstanding bonds will be issued by the California Pacific Title & Trust Company.

Legality. All legal matters incident to the authorization and issuance of these bonds will be subject to the approval of Messrs. Brobeck, Phleger & Harrison, Attorneys, San Francisco.

UNION READY TO DRILL IN VENEZUELA

Roads and Camp Finished; Work to Get Under Way in Few Days

With the roads and camp built, the machinery in place and the crew rigging up, Union Oil Company's test well, the first to be drilled on its immense holdings in Venezuela, is due to get under way within the next few days.

The well is situated about four miles south of the Mesa Grande field, regarded as one of the best in Venezuela, and two and one-half miles from the Caribbean Petroleum Company's well, which is producing 10,000 barrels a day. It is located structurally on what is now regarded as a probable extension of the Mesa Grande field, and will be a direct offset of the Caribbean Petroleum property.

The southern end of the Mesa Grande field, adjoining which the Union project is located, has been shown to be one of the most productive areas in the Maracaibo basin.

The Union Oil Company's holdings in Venezuela approximate 800,000 acres, which are held in blocks scattered over both the eastern and western oil areas of the country, and in nearly every instance adjoin properties held by other major operating companies.

MILL CONTRACT LET Blackhawk Mining Plans Flotation Plant at Deming

DEMING, N. M., April 15. (Exclusive)—The last few years the mining company has been developing the property and now has sufficient ore blocked out for milling. The ore is lead-zinc and selective flotation will be used. The property is under the management of I. L. Wright.

BERRY ABANDONS ADOBE CANYON TEST BAKERFIELD, April 15. (Exclusive)—The Berry Oil Company has abandoned its No. 1 well in Adobe Canyon north of Bakerfield on Sec. 25, 27-28. The top of the Vedder zone was picked up at 1153 feet and extended to 1280 feet.

SHUT-IN OUTPUT ESTIMATED HIGH Oil Conservation Program in Full Swing

Total Curtailments Placed at 138,500 Barrels Result Achieved Through Concerted Action

With the closed-in production of California practically tripled since the last year, the oil operators of the State have definitely committed themselves to the most extensive conservation program that has ever been instituted in the history of the industry in this State. Conservative estimates place the shut-in production of California at between 135,000 and 140,000 barrels, which is to be compared with the normal shut-in production of between 45,000 and 50,000 barrels.

This result has been accomplished through the co-operative spirit of the operators, with the assistance of officials of the State government and has resulted in a complete shut-down of several fields, and drastic curtailment of others. The major part of the closed-in production is in the fields of the San Joaquin Valley, with marked reduction in Ventura county, and still less in the fields of the Los Angeles basin and Orange county.

A survey of the approximate shut-in production in the various fields follows: Coalinga, 24,000 barrels; Kern front, 20,000 barrels; Kern River, 25,000 barrels; Elk Hills, 15,000 barrels; Ventura county, 12,000 barrels; Midway-Coyote, 10,000 barrels; Fullerton, 7,000 barrels; Pico Creek, 6,000 barrels; Santa Maria, 5,000 barrels; miscellaneous shut-down wells, 20,000 barrels. Total, 138,500 barrels.

\$6,000,000
Marblehead Land Company
First Mortgage 6% Sinking Fund Gold Bonds, due 1948
Price 100 and Interest, to yield 6%

Four For One Security: These bonds are directly secured by first mortgage on the following properties owned in fee and comprising a portion of the estate of the late Frederick Hastings Rindge, pioneer Los Angeles business man:

Parcel 1. Comprising 7,965 acres—a portion of the original Rancho Malibu, acquired by Mr. Rindge in 1890 and 1891, situated westerly from Santa Monica, and fronting on the Pacific Ocean for many miles. Appraised value.....\$20,650,000

Parcel 2. Comprising some 600 acres of land partially subdivided, situated in the City of Los Angeles, fronting on both sides of Robertson Boulevard, east of and adjoining the Hillcrest Country Club. Appraised value.....3,775,400

Parcel 3. Angeles Mesa Drive Tract, composed of 75 improved lots, already subdivided, situated on Angeles Mesa Drive, between West Adams Street and Exposition Boulevard in Los Angeles. Appraised value.....454,750

Total.....\$24,880,150

Based on these valuations, each \$1,000 bond of this issue is secured by over \$4,100 in real property. Few first mortgage issues, we believe, offer as ample a ratio of security of similar high-grade character.

Complete circular descriptive of the other exceptional features of this investment will be gladly furnished you without obligation. Just send name and address in the margin of this advertisement.

Late Reports From California's Great Petroleum Pools

OIL PRODUCERS' AGENCY ELECTS

Society of Independents in Annual Meeting
Executive Staff and Board Left Unchanged
Report on Operations for Past Year Made

BAKERSFIELD, April 14. (Exclusive)—L. P. St. Clair, president of the Independent Oil Producers' Agency, has "every confidence" that the oil industry has passed the point of depression, he told members and directors of the agency at their annual meeting here. In the election which climaxed the annual conference, St. Clair and all other officers and directors were re-elected.

The officers are L. P. St. Clair, president; S. W. Donahue, vice-president; W. B. Robb, secretary, and George W. Lane, attorney.

The Independent Agency marketed 18,403,281 barrels of oil during 1927, for a return of \$12,387,054, according to the annual report of St. Clair.

The total of \$12,387,054 received by the independent producers through the agency is \$615,717 in excess of the returns of such oil being sold outside the agency at prevailing market prices, the report showed.

It was stated that the operating cost during 1927 was lower than during any previous year of the agency's activity, the cost per barrel sold outside the agency at prevailing market prices, the report showed.

Contracts for the coming year were entered into with the following companies: Beverly Oil Company, Interstate Oil Company, Hugh B. Evans, Inc., California Star Oil Company, Coalinga Star Oil Company, and Salvia Oil Company.

"Marketing companies are unanimous in an endeavor to curtail production as far as possible," President St. Clair told the members. "Such a movement is almost imperative because of the lack of storage facilities."

The directors of the agency are as follows: J. B. Wells, E. E. Bailey, P. C. Berry, C. J. Berry, W. H. Berry, W. H. Boyd, W. W. Cohn, H. D. Cohn, Martin Coyne, A. J. Critch, Hugh B. Evans, D. S. Ewing, R. R. Flaherty, Earl Fletcher, R. E. Graham, C. R. Hannaman, George R. Harrison, John H. Haring, T. Johnson, W. T. Knowles, C. Alandgren, John L. McClint, Alex Miller, S. W. Morrison, H. P. Owen, M. C. Parker, George R. Peckham, C. E. Price, R. E. Rickard, W. B. Robb, E. R. St. Clair, Walter Snook, C. C. Wallace, W. E. Wallace, C. H. Warlow, A. Weill, H. H. Welsh, T. M. Young, F. C. Van Deine, William T. Zimmer, J. S. Goodwin, W. H. Bradley, T. Fox, F. V. Gordon, Herman Laver, T. A. O'Donnell, W. L. Stewart, Henry Erickson and G. W. Whittier.

The members re-elected the executive committees as follows: H. H. Welsh, Dave S. Ewing, H. D. Cohn, George W. Harrison, W. W. Cohn, R. E. Bailey, K. C. Wallace, C. H. Warlow, F. C. Van Deine, W. L. Stewart, John L. McClint and G. W. Whittier.

GOLD MINE AT JULIAN INSPECTED

Ready Relief Property Visited by San Diego Chamber Official

According to J. E. Morrison, manager of the mining department of the San Diego Chamber of Commerce, the steady development of the Ready Relief group of ten mining claims in the Banner district near the town of Julian, by the Hollywood Gold Mines Company, gives promise of placing that property upon a regular and profitable production basis in the near future.

With Sidney E. Mayer, president of the chamber of mines Mr. Morrison visited the gold property last week. The party was shown about the plant and through the mine by George Surprenant, general manager, and spent most of the day in the picturesque camp.

The domain of the company includes 228 acres mill site and workings, \$1,600,000 in gold is said to have been produced by early-day owners.

Taken over by the Hollywood company about two years ago, a fifty-foot shaft has since been installed, replacing the antiquated ten-stamp plant and the new mill is said to be doubling its capacity in output.

The mine has been equipped with up-to-date machinery, including engine and hoist and a pumping plant, at a total cost for mill and modern appliances, of approximately \$150,000.

In mine development, the main working shaft has been sunk to a depth of 212 feet. From the bottom of the shaft a drift has been run on the vein into the mountain a distance of 900 feet. There is 100 feet yet to go to complete the present plan of mine development.

A depth of 300 feet, with limitations yet to be determined. It is the intention to continue the shaft to a depth of 500 feet, opening up the ore bodies on that level.

RESEARCH ARM ADDED

United Verde Building New Plant for Department Use

CLARKDALE (Ariz.) April 13. (Exclusive)—A department of research has been created by the United Verde Copper Company, in charge of O. C. Ralston, formerly of the Federal Bureau of Mines. The department is to be housed in a \$25,000 laboratory building, now nearing completion, placed where it may be in close contact with the assay department.

To be installed will be many new features and processes for determination of the character and value of ores and minerals, with a \$25,000 use of microphotography. Great economic and scientific value is expected to result from operation of the new plant, the only one of its character in the Southwest.

WEEKLY STOCK RANGE

Bureau of Statistics of the Merchants' National Trust and Savings Bank issues the following table of the range of prices on the New York Stock Exchange for the week ending April 14, 1928, together with the net changes as compared with the close of the preceding week. (+ Gain, - Loss.)

GAIN CONTINUES IN OIL EXPORTS

Shipments Increase 300,000 Barrels

Wilmington Takes First Place for Week

Second and Gasoline Third on List

On the upward trend, and Wilmington took 1,000,000 barrels of oil for the week ending April 14, 1928, according to figures from the Wilmington Chamber of Commerce.

Gasoline exports from Wilmington for the week ending April 14, 1928, were 1,000,000 barrels, according to figures from the Wilmington Chamber of Commerce.

Second place was taken by Los Angeles, which exported 800,000 barrels of oil for the week ending April 14, 1928, according to figures from the Los Angeles Chamber of Commerce.

Gasoline exports from Los Angeles for the week ending April 14, 1928, were 800,000 barrels, according to figures from the Los Angeles Chamber of Commerce.

Third place was taken by San Francisco, which exported 600,000 barrels of oil for the week ending April 14, 1928, according to figures from the San Francisco Chamber of Commerce.

Gasoline exports from San Francisco for the week ending April 14, 1928, were 600,000 barrels, according to figures from the San Francisco Chamber of Commerce.

The Wilmington Chamber of Commerce reports that the oil industry in Wilmington is showing a steady upward trend, and that the city is well equipped to handle the increasing volume of oil exports.

The Los Angeles Chamber of Commerce reports that the oil industry in Los Angeles is showing a steady upward trend, and that the city is well equipped to handle the increasing volume of oil exports.

The San Francisco Chamber of Commerce reports that the oil industry in San Francisco is showing a steady upward trend, and that the city is well equipped to handle the increasing volume of oil exports.

EXTENSIVE MINE WORK PROJECTED

Spanish Mining Company Planning to Electrify Nevada City Estate

SACRAMENTO, April 15. (Exclusive)—The Spanish Mining Company is preparing for extensive work at its holdings in the Washington district, above Nevada City.

The company is being sought from the California Water Commission for authority to divert fifteen cubic feet of water per minute from the Sacramento River, a tributary of the Yuba River, to the holdings for generation of hydroelectric power.

The company plans building of a modern mill and installation of equipment on the mine at an estimated cost of \$300,000. The management reports substantial bodies of commercial ore have been placed in sight.

Manager A. D. Foote of the North Star Mines Company operating at Grass Valley, reports that the value of gold produced in 1927 reached \$600,000. Despite this output the company faced a deficit of \$11,000 for the year, due to heavy expenditures for development of the lower workings. The outlook is said to be excellent for turning of substantial profits this year. In the past forty-three years the North Star has produced \$2,850,000 and disbursed \$4,780,000 in dividends.

Arrowhead Annex Mining Company of Los Angeles reports a vein of gold ore three to four feet wide, sampling \$10 per ton, has been uncovered above the tunnel level of the Benes property, near San Andreas. The mill has been put in commission, and is treating around twenty tons daily. The management states the working force will be immediately increased and developments conducted along comprehensive lines.

Alloy Concern Plans to Erect New Smelter

The Glendora Alloy Company, of which George Chertoff of Los Angeles is president, is making preparations to start an electric smelter in Big Dalton Canyon near Glendora, within the next few weeks, to process a metal which, it is asserted, is harder than steel.

According to reports, the mine, which has just been opened in the canyon, is the only one of its kind known in the United States. Similar ore is found in Germany, it is reported.

The company at Glendora is erecting a group of galvanneal buildings and putting in a modern plant throughout. Considerable security surrounds the activities there, according to reports from Glendora.

RARE MINERALS, METALLURGY, CHEMISTRY

Not Silver Ore

PARKER (Ariz.) March 25.—Question: I am sending you a package containing two samples of rock from the Castle Dome Mountains, Ariz. Specimen No. 1—red and No. 2 black. Please analyze the same.

Answer: Sample No. 1 is stained with manganese dioxide and manganese carbonate. Tungsten traces. No. 2 is a lavas-like alloy, amygdaloidal rock, showing glassy amygdaloid and other feldspathic matter. Tungsten traces.

Corendum Absent

IMPERIAL, March 25.—Q: I am sending under separate cover two rock samples from Imperial county for analysis. Thanking you for past favors.

A: Sample No. 1 is black quartz with calcite. No. 2 is altered from amphibole containing manganese. No. 3 is rather small for satisfactory tests—it reacts for iron, calcite and iron-lime traces. Copper a trace. No. 4 is microscopic hornblende schist; pyrite traces.

Flake Platinum Absent

FUEFTE, March 25.—Q: Please analyze and inclose in separate package four specimens from surface veins taken near Rainbow Valley, San Diego county. I would like to know what they contain and if of any value. Does sample No. 1 carry platinum? Oblige.

A: No. 1 is hornblende gneiss; false platinum not present. No. 2 is feldspathic rock. No. 3 is massive garnet, some iron silicate and pyrite traces. Rather a poor showing—mineral assays return gold values.

"Cat Gold"

WHITTIER, March 25.—Q: I am sending under separate cover two samples which I wish analyzed for gold and also for such minerals as you may deem necessary. The samples were taken from the mountains north of San Bernardino.

A: Sample No. 1 is granite rock, in part gneiss, containing various microscopic minerals, such as biotite (black mica) of the mining type (in the hills), microscopic yellow mica known as "cat gold," monazite (yellowish white) mica or less feldspar, and microscopic quartz. No. 2 is on the order of No. 1 with not so many varieties of minerals.

Rocks

VICTORVILLE, March 27.—Q: I am forwarding you two specimens of rock from Victorville mining district. Several mining men have

PROFITS OF MINE IN AJO FIELD TOLD

New Cornelia Reports Dividend Total in 1927 Largest in History

AJO (Ariz.) April 15. (Exclusive)—A net profit of \$1,077,713 was made by New Cornelia last year, according to the company's annual report, just issued. There was gross income from metal sales of \$1,362,610, with \$4,561,784 charged to operating expenses, net \$3,916,826 to general expenses, \$1,397,040 to freight, refining and marketing and \$447,769 to taxes. Incidentally, this mine pays about half the taxes of Pima county, which includes also the city of Tucson.

The company in 1927 paid dividends aggregating \$2,400,000, the largest in its history, filling out a gross dividend record of \$14,130,000 since 1918. President Gordon H. Campbell adds a statement that "market conditions do not justify maximum production," from which may be assumed that dividends readily could be made larger in the event the market could stand a larger supply.

Material mined during the year amounted to 4,432,000 tons, of which only 27,500 went to the waste dumps. To the concentrator went 1,250,000 tons of ore, carrying 1,421 per cent of copper, of which 15 per cent was classed as oxide. The leaching plant was delivered 1,021,748 tons, containing 1,125 per cent copper, of which 101 per cent was classed as insoluble. In addition, to low-grade dumps were delivered 128,312 tons of 358 per cent sulphide ore and 628,912 tons of 338 per cent carbonate.

The cross-cut is being advanced at the rate of four feet daily and in good holes of commercial value the management states, and this week gold-washing and recovery will begin on the material drawn from the cross-cut as work progresses.

Large quantity production is planned within thirty days, the management being steadily increased as output is maintained up to peak production.

NEW MEXICO SILVER MINE IN NEW HANDS

Eastern interests represented by W. J. Wetherby have purchased at \$100,000 the American Silver Corporation holdings of rock from Victorville mining district. The company has been in the hands of a receiver for several years.

Included two samples are very interesting to me, but don't know what they are—hence the call to you!

A: No. 1 is not metallic stone, it is limestone with more or less pyrite. No. 2 is lava-like matter carrying gypsum and quartz.

Two Specimens

LOS ANGELES, March 26.—Q: Included two samples are very interesting to me, but don't know what they are—hence the call to you!

A: No. 1 is not metallic stone, it is limestone with more or less pyrite. No. 2 is lava-like matter carrying gypsum and quartz.

Rocks

VICTORVILLE, March 27.—Q: I am forwarding you two specimens of rock from Victorville mining district. Several mining men have

Eleanor Placer Acquires Site for Reservoir

Storage rights have been acquired in Ballard's Bar reservoir for hydraulic operations by the Eleanor Placer Mining Company, recently organized by Charles E. Herron of Los Angeles, and his associates, owning a number of placer claims on the old Eureka channel nine miles north of Downsville, Sierra county; and it is stated, gold recovery equipment is being purchased for immediate installation, and two men employed in the construction of ditch lines.

Mr. Herron, a veteran Alaska mining operator, and who has also been successful in mining operations in Northern Idaho, has also organized the Eleanor Placer Company, which will work placer claims within the town limits of Downsville, these diggings, it is asserted, containing some of the richest gold gravel deposits in the State.

For the carrying on of this project the company is reported to be building 15,000 feet of flume, to carry 6000 cubic feet of water, and has constructed a dam three miles up the south fork of the Yuba River, for the purpose of water diversion for placer mining operations.

Boundary Cone Pushes Work at Blue Lead Mine

Cross-cutting is in progress from No. 7 raise and roadway in the development of the Blue Lead gold-bearing channel near Mokelumne River in Colusa county, owned by the Boundary Cone Gold Mines Company of this city, and it is believed another forty or fifty feet will take the cross-cut into the main gravel bar.

The cross-cut is being advanced at the rate of four feet daily and in good holes of commercial value the management states, and this week gold-washing and recovery will begin on the material drawn from the cross-cut as work progresses.

Large quantity production is planned within thirty days, the management being steadily increased as output is maintained up to peak production.

Bandit Slain, One Dying, Another Escapes in Hot Gun Battle

TRIO TRAPPED IN LONG BEACH

Ballroom Scene of Vicious Fight With Police

Suspected Member of Same Gang Arrested Here

Officers Unhurt as Their Bullets Hit Marks

In a vicious effort to shoot their way out of a trap set by police and deputy sheriffs at the Cinderella Ballroom in Long Beach early yesterday morning, one man paid with his life, a second was, perhaps, fatally wounded, and a third, believed shot, escaped. None of the officers was hit.

The dead man was Earl C. Davis, 35 years of age, with a police record as a thief. Davis died at the Seaside Hospital shortly after the affray ended with eleven bullet holes in his body.

The wounded man gave the name of Richard Phillips, 30. He was shot seven times. He was taken to the prison ward of the General Hospital, where his condition is said to be critical.

LASTS TEN MINUTES
The battle between the officers and the trio was described as one of the most desperately contested combats between law-enforcement men and suspected criminals in Long Beach for many years. For ten minutes or more guns blazed on both sides. Superior marksmanship on the part of the officers, Detective Lieutenant Bob Evans of the Los Angeles Police Department, Deputy Sheriff's Constable Chapman and Fitzgerald, and Detective Lieutenant Davidson and Detective Sergeant Galt of the Long Beach Police Department, spelled the defeat for the suspects.

The trap into which the three walked was well planned by the officers. Acting on a tip Detective Lieutenant Evans and the deputy sheriffs enlisted the aid of the Long Beach detectives and, shortly after midnight Saturday, placed themselves in ambush about the ballroom. Information had reached them that at attempt was to be made to blow open the safe of the ballroom. The safe was known to contain \$10,000 in cash.

With revolvers ready and their pockets filled with extra shells, the officers waited, expecting that the trio would resort to gun play.

SILENCE BEGINS
Minutes passed. Then hours. The ballroom located at 307 East Seaside avenue had been deserted. The street was deserted. A chill wind blew in from the sea. There was complete silence.

Then in that darkest hour just before dawn each officer from his place of concealment saw three figures appear out of the darkness behind the ballroom and cross bravely toward a ground-floor window. One of the trio set a large suit case down on the ground while a companion cautiously started to tip the screen from the window.

SPRING FEVER BUG ATTACKS CO-EDS

It's Not Ailment, Just Mental Let-down, Says Physician

Psychologist Declares It's Physiological. No matter what its cause these university of Southern California co-eds have real spring fever. They are, left to right, Mary Belle Blair, who has stacked her books, and Melba Harmon is following the spring fever urge. Helen Haver indulges in a spring stretch as the sun gets in its work on the Trojan campus.

SPRING fever, from a psychologist's point of view, is mainly physiological and from a physician's point of view it is all psychological.

If the psychologists want to blame it on physiology and the physicians on psychology, it is all the same to the co-eds at the University of Southern California. They believe it is a real ailment. At least it is real enough to swing campus conversation.

The third man, the one believed to have escaped, lurked in the back ground. At that moment the five officers started to move forward from their hiding places.

"Up with your hands, boys, we're

the south side of the new City Hall is now being paraded with flowers and shrubs. There will be ornamental sidewalks radiating to the south entrance of the new City Hall from First and Spring. First and Main and from Main and Spring streets. The city-owned Equitable Building at First and Spring streets is being rapidly demolished and this work may be completed and the site landscaped before the dedicatory celebration.

OFFICES SPACIOUS
The public will find city departments which were formerly packed into small, cramped rooms, many of them in rented buildings outside of the old City Hall, in spacious offices. The City Treasurer, for example, occupies the entire fourth floor. The Mayor's office and the Council chamber and the magnificent Board of Public Works session room are on the first floor.

The Mayor's offices are a suite of rooms with a large reception room. The Mayor's private office is a room with a view of the city. The Mayor's office is a room with a view of the city. The Mayor's office is a room with a view of the city.

BATTLE BEGINS
The three, started by the command out of the darkness, jumped back from the window, instead of complying with the demand to surrender, according to the report of the officers, they whipped out revolvers, and opened fire.

The officers dodged back. Evans was the first to reply to the fire. Then a volley of his companions crashed into the suspects. The latter ceased firing long enough to scurry back around the rear of the ballroom to gain cover, then, as the officers advanced, repeated their fusillade.

For ten minutes or more, shots were exchanged on both sides. Then the fight ended. The officers advanced to find Davis dying. Phillips was wounded, and the third man gone.

Davis was rushed to the Seaside Hospital in Long Beach. Before he died, a few minutes later, he told the officers, according to their report, that he served five years for robbery in Oklahoma.

According to Evans, Davis has been partially identified as the man who shot yesterday. Evans stated, as he wore on the night of the attempted robbery and slaying of McGill.

On their return to Los Angeles, Evans gave a man giving the name of Tom Shields, 1115 South Wall street, the address given by Phillips, the wounded bandit. Shields, Evans reported, is supposed to be a member of the same gang which was led by Davis. Search was continued yesterday for the suspect who escaped.

The suit case carried by one of the three men contained, according to the officers, a large sum of money. This was confiscated and is held as evidence.

SUSPECT FOUND NEAR DEATH AFTER SHOOTING
By a "Times" Staff Correspondent
LONG BEACH, April 15.—Discovery of a trail of blood leading to an apartment at 31 Magnolia street today saved the life of John C. Davis, 35 years of age, arrested here, when he was found in hiding from law enforcement.

After being picked up for vagrancy on the Pike last night by Officer Ed Hill, Martin broke away from the policeman and fled. Hill fired after him, shooting once into the air and once directly at him, but did not know that he had hit Martin.

Early yesterday Detective Sergeant Springer and Kirkpatrick, with Officer Wingfield found the trail of blood in the neighborhood near the Pike and followed it several blocks to Martin's apartment. Breaking down the door, they discovered Martin lying in bed near death. He was rushed to the Seaside Hospital, where hope now is held out for his recovery.

According to the doctor, if Martin had remained without medical aid for a few hours longer he would have been dead.

No charges have been placed against him pending the outcome of the commission.

Dr. Aaron J. Rosenfeld, lecturer at the Trojan metropolitan college, holds that the spring weariness is all mental.

"If body activities or the blood have anything to do with so-called spring fever," Dr. Rosenfeld said, "doctors have yet to discover it. Blood tests have been made with negative results. We expect the tired feeling on these warm days from trepidation—therefore we make ourselves believe that spring fever has us. It is all mental."

Dr. Rosenfeld, lecturer at the Trojan metropolitan college, holds that the spring weariness is all mental.

The new City Hall is one of the largest and most modern buildings in the United States, with usable floor area of 307,714 square feet. The height of the tower above Main street is 452 feet, while the tower foundation is 115 feet square. In the building are 617 tons of structural steel and 201,500 cubic feet of concrete.

OBSERVANCE OF HUMANE WEEK BEGUN

Churches Usher in Drive for Kindness to Animals; Boy Scouts Help

So kind to animals week, sponsored by humane societies throughout the United States, was ushered in yesterday with the observance of humane Sunday in churches and Sunday-schools of Los Angeles, as well as other cities all over the country.

The movement in California has been secured the enthusiastic support of the State Humane Association and Mrs. Warren McIntire, president of the board of commissioners of the department of humane treatment of animals, has been assigned to the Los Angeles district.

Assurance was received from ministers and Sunday-school superintendents that the humane societies will be able to make the observance would be made for the observance of humane week.

One thing which the humane organizations with particularity to emphasize, Mrs. McIntire said, is that a child habit of kindness will go a long way toward overcoming latent criminal tendencies. Boy Scout troops will give first-aid demonstrations at twenty-one city playgrounds Wednesday and on Saturday, and pet shows will be held at the playgrounds with prizes for the winners. Cats, dogs, rabbits and all kinds of domestic pets are eligible, the committee announced.

POLICEMAN GIVEN COURT BAILIFF POST

Assignment of Policeman M. D. Hayes as bailiff in Municipal Judge Leonard Wilson's court has been announced to become effective today. Hayes succeeds T. F. Watson, transferred to other duties at Central Station. Hayes has been connected with the Police Department five years.

TAXATION INSTITUTE PROJECTED

Experts Will Discuss Phases at University Session in July

The tax system of the State of California, now the subject of study by a special commission empowered to make recommendations for its revision, will be discussed by experts at the Institute of Public Relations at the University of California at Los Angeles next July. The subject will occupy the two days of the institute, July 12 and 13. The topic will be divided into three principal phases, one of them "The Present System of Taxation" to be discussed by Senator Carr, member of the State Railroad Commission and the Tax Commission.

COUNCIL IN NEW CHAMBER TODAY

(Continued from First Page)
In the south side of the new City Hall is now being paraded with flowers and shrubs. There will be ornamental sidewalks radiating to the south entrance of the new City Hall from First and Spring. First and Main and from Main and Spring streets. The city-owned Equitable Building at First and Spring streets is being rapidly demolished and this work may be completed and the site landscaped before the dedicatory celebration.

BEER WAR BLAMED IN SHOOTING
Man Dying from Bullet Received in Mystery Affray Taken to Hospital by Bride

Police are investigating the mysterious shooting of William Norton, 34 years of age, of 4441 Wilshire brook avenue, who was taken to the Georgia-street Receiving Hospital last night by his bride of three months, Lily Norton, in a driving condition with a bullet hole through his right breast.

Detective Lieutenant Sharritt believes the shooting is connected with a beer war and that Norton is the victim of a shooting affray indulged in by men in two cars yesterday afternoon at West Pico and Valencia streets and continued south on Valencia, to Fifteenth street, and then to Union avenue, where all traces of the cars was lost.

HINDU APOSTLE BATTLES DOGMA

(Continued from First Page)
result of many experiences, not only in this life, but in many other lives, perhaps thirty, perhaps more.

"I am like a little stream," he said, and always he holds up one very slight feeling to emphasize his remarks. "Gradually I have been fed by other streams and have wandered through the country until coming finally to the ocean. I am the ocean of perfection. It is the same ocean reached by Christ and Buddha and a few others. Everyone some day will reach it. The Mohammedans call it Nirvana."

He laughed when asked if he is coming back for another life after this one.

"Who knows? I may feel that it is best, or I may not," Krishnamurti will go to Ojai today in an automobile prevented him by his followers. At the Order of the Star county court next month persons are to gather from all parts of the world to hear him speak and to further their work, that of the Order of the Star. He will be in this country six weeks and will then return to Europe and India.

POSTER COURSE ANNOUNCED
Manual Arts Evening High School has announced a short unit course in lettering, color and posters for commercial purposes on Monday, Wednesday and Friday from 7 to 9 p.m. This is to be followed by a short study of color, color relation and color harmony. The semester's work will be concluded with layout, design and actual completion of one or more posters. Manual Arts Evening High School is at Forty-second street and Vermont avenue.

Miss Margaret Traugott, Vernon's first and only woman judge after three months on the bench finds that her job is quite easy.

Taxicab Driver Certain He Saw Child in North

Police Believe Lad May Have Gone Hunting Father

An intensive search of Seattle was ordered by police yesterday for Walter Collins, 9 years of age, who has been unaccountably missing from his home here since March 18, last, when a taxicab driver reported to the northern authorities that he had seen the boy in the Washington city's business district.

Ernest Holloway, the driver, said the boy he saw, and identified as the Collins boy from published pictures, appeared to be drawn and weary, as if he had spent many sleepless nights. The boy fled when Holloway approached and began to question him.

WEARS ROUGH CLOTHES
The boy, dressed in a rough blue shirt and overalls, was also identified as resembling the photograph of the Collins boy by H. C. Eason, Seattle business man, who followed the boy after Holloway pointed him out.

"I hardly believe I could be mistaken," Holloway said to police, "because I was carrying a newspaper clipping of the Collins boy's picture and it looked exactly like him. He ran away when I tried to question him and went into a near-by building."

Capt. Jones and Detective Lieutenant Hanson and Lester in charge of the case are tentatively considering the theory that the boy ran away from home in search of his father, after his mother repeatedly told him the older Collins was in Seattle.

BOYS FATHER CONVICT
Walter J. S. Collins, the boy's father, however, is a convict at Police prison and, when the boy first disappeared, was serving a term for larceny of a car.

The officers working on the case under Chief of Detectives Cline have made an exhaustive search throughout California for the missing boy, without success. Lincoln Park Lake, near which he was last seen, was searched and there it was learned young Collins had been fallen in and drowned.

BEER WAR BLAMED IN SHOOTING

Man Dying from Bullet Received in Mystery Affray Taken to Hospital by Bride

Police are investigating the mysterious shooting of William Norton, 34 years of age, of 4441 Wilshire brook avenue, who was taken to the Georgia-street Receiving Hospital last night by his bride of three months, Lily Norton, in a driving condition with a bullet hole through his right breast.

Detective Lieutenant Sharritt believes the shooting is connected with a beer war and that Norton is the victim of a shooting affray indulged in by men in two cars yesterday afternoon at West Pico and Valencia streets and continued south on Valencia, to Fifteenth street, and then to Union avenue, where all traces of the cars was lost.

HINDU APOSTLE BATTLES DOGMA

(Continued from First Page)
result of many experiences, not only in this life, but in many other lives, perhaps thirty, perhaps more.

"I am like a little stream," he said, and always he holds up one very slight feeling to emphasize his remarks. "Gradually I have been fed by other streams and have wandered through the country until coming finally to the ocean. I am the ocean of perfection. It is the same ocean reached by Christ and Buddha and a few others. Everyone some day will reach it. The Mohammedans call it Nirvana."

He laughed when asked if he is coming back for another life after this one.

"Who knows? I may feel that it is best, or I may not," Krishnamurti will go to Ojai today in an automobile prevented him by his followers. At the Order of the Star county court next month persons are to gather from all parts of the world to hear him speak and to further their work, that of the Order of the Star. He will be in this country six weeks and will then return to Europe and India.

POSTER COURSE ANNOUNCED
Manual Arts Evening High School has announced a short unit course in lettering, color and posters for commercial purposes on Monday, Wednesday and Friday from 7 to 9 p.m. This is to be followed by a short study of color, color relation and color harmony. The semester's work will be concluded with layout, design and actual completion of one or more posters. Manual Arts Evening High School is at Forty-second street and Vermont avenue.

Miss Margaret Traugott, Vernon's first and only woman judge after three months on the bench finds that her job is quite easy.

SIM CRABILL says:

"For rare enjoyment, spend this week-end at Palm Springs. For enjoyable profitable Direct Advertising, come to Times-Mirror Printing and Binding House."

PALM SPRINGS... not long since a sleepy little desert oasis, now is mecca for thousands, thanks to the initiative of vision-blessed men and women. To those who know and love the desert, and to those who would like to know this fascinating land, this charming place offers every comfort that contributes to the joy of living and many of the recreational luxuries commonly found only in the effete cities.

Direct Advertising, such as this new eight-page folder prepared by Mr. Phil Boyd, able Secretary of the Palm Springs Chamber of Commerce, and printed by us, has had an important role in this development. None can read and not desire to visit California's foremost desert resort and social center.

Palm Springs, on the western fringe of the Colorado Desert of California, watched over by massive, snow-capped Mount San Jacinto. It's a delightful ride of less than four hours by motor car or via the Southern Pacific, which railroad, by the way, helps to distribute these folders.

We recommend Palm Springs for your pleasure and benefit. And we recommend, for your business, Direct Advertising such as is prepared by the experts of our Service Staff and printed by this organization.

Has Your Back Given Out?
A Constant Backache Often Means Stagnant Kidneys

EVERY day find you lame, stiff and weary? Are kidney secretions too frequent, too scanty, too painful?

Know, then, that these are often signs of stagnant kidneys. Stagnant kidneys allow acid poisons to accumulate and upset the whole system.

If your kidneys act sluggishly, avoid such foods as meat, eggs, and dairy products. Instead, eat a diet of fruits, vegetables, and cereals. Doan's, a stimulant diuretic, increases the flow of urine and aids in the elimination of waste impurities. An invigorating tonic. Ask your neighbor!

"Use Doan's," Say California

Small advertisement, copywriter, 3045 7th Ave., Los Angeles, Calif., says: "At one time my kidneys were disordered and ailed me terribly. My back was lame and sore and I didn't feel at all like myself. I used a lot of Doan's Pills and they relieved me of all the trouble. I have had no more kidney complaint since."

STUDENTS TEST GLIDER TODAY

Aeronautic Class at Claremont School Builds Model
Machine of German Type and Teacher Will
Make Soaring Trip

If a test flight with a man-carrying glider, to be made this afternoon at 3:30 p.m. at the Webb School of California at Claremont, proves successful, the skies over Southern California bid fair to become thicker than flies with these contrivances, according to the enthusiastic predictions of the students who have built the glider.

This is one of the first of the German type of practice gliders to be built in this country. It was done by the members of a course in aeronautics at the school under the direction of Lieut. J. V. Deuel of the United States Army Air Corps. It has a twenty-foot wing span, an over-all length of ten feet and weighs seventy-five pounds. Materials for the machine cost approximately \$30 and it took one month to complete it. Lieut. Deuel will make the test flight.

These gliders, it is explained, are being developed as a new form of sport. Although the machine has no motor, properly manipulated it is supposed to attain considerable altitude and to remain aloft for hours at a time, eddying about on the air currents like a bird. When it finally does come down it settles so gradually that there is no danger of accident, if manipulated skillfully.

If the glider test proves a success the students will build one of a more advanced type with controls and later they hope to compete for endurance records with the gliders of other schools.

Arthur Rosenblum and Thomas Higgins, Jr.

DOUBLE COMPLAINT
Property owners in the neighborhood complain that the cement dust not only permeates the air and interferes with their breathing, but clogs up drain sewers.

Forty-five residents of the section, many of them residing on West Sixty-seventh street, have been subpoenaed, according to Prosecutors Rosenblum and Higgins, Jr.

It is probable the case will be transferred out of Judge Sheldon's court because of the usually heavy Monday calendar, officials said.

SOIL TO BE TURNED AT BOYS' HOME

Campaign for Funds Will
be Pushed Ahead Until
\$187,000 Has Been Raised

Ground-breaking ceremonies for the new \$250,000 Pacific Lodge Home for Boys will be conducted about May 1 on the beautiful forty-two acre site, a mile east of Glendale, donated by the Bekins Van and Storage Company, according to announcement made yesterday by B. B. Weatherall, superintendent of the Pacific Lodge. The site is valued at about \$42,000.

"This does not mean that we have funds in hand to complete the building but that we have faith in the citizens of Southern California to provide the \$187,000 still needed to finish its construction," said Mr. Weatherall. "The campaign for funds already has resulted in the collection of \$63,000 and the campaign will continue until the goal is reached. More than 1000 individuals of Los Angeles, Hollywood, Long Beach, Pasadena and Beverly Hills have contributed generously, one woman in Beverly Hills having contributed \$5000. Much of the cement, lumber, paint and brick have been contributed as well as some of the furniture for the new home. A creamery company has donated two cows to the new home and we have the promise of 100 days of labor to be given by carpenters who work by the day."

The sixty-three boys of Pacific Lodge will be compelled to vacate their old home at Pomona July 1 when the State takes over the site and buildings to be used as a sanatorium for narcotics. Pending completion of their new home the youngsters will live in tents on the new site.

"The Los Angeles Board of Education has promised to erect school buildings and to provide teachers for the boys as soon as we are located in the new home," said Mr. Weatherall. "At present we have two teachers, supplied by the county, and the boys are proving as apt in their studies as any other children of the public schools. Religious services are conducted regularly. The boys are taught to work and are trained in every way as well as youngsters in the average home."

"This community needs Pacific Lodge because it means a home and love and a chance to make good for scores of underprivileged boys," said Judge Robert Scott of the Juvenile Department of Superior Court. "It meets a continuing need for a character-building home school which cannot be met in the same way by any other institution."

R. R. Fowler is chairman and John Willis Baer treasurer of the Pacific Lodge Building fund and donations may be sent to Dr. Baer at the campaign headquarters, 396 Broadway Building.

Former Banker Pleads Today in Funds Charge

John E. Murphy, former manager of the branch of the Los Angeles-First National Trust and Savings Bank at Second and Fremont streets, will appear for entry of plea in United States District Judge James's court today. He, with D'Arcy Parker, is accused of misapplication of funds amounting, according to Asst. U. S. Atty. Layne, to about \$30,000. These funds, it is charged, were taken from the accounts of various depositors, some of them losing as much as \$3500.

Murphy is accused in two indictments, one joining Parker, and mentioning twelve counts, and one naming only Murphy, with four counts. Murphy is at liberty on bail of \$10,000.

Instructor to Make Desserts

Mrs. Mae Cummings, who conducts a free cooking class every Monday afternoon in the demonstration room of the Manufacturers' Exhibit, Southwest Building, 120 South Broadway, will have some desserts to exploit this afternoon. In her list are included strawberry shortcake, butterscotch cookies and Jenny Wren biscuits. Mrs. Cummings uses the Dangler range with Lorraine oven control.

The Times Cooking Class, conducted by Mabelle (Chef) Wyman, meets Tuesday at 2 p.m. in the same room.

Personality Photographed

WITH a frankness never before attempted these noted players and motion picture executives will speak their minds in just the same fashion that they would if you were listening to them in their own homes.

Every word stenographically photographed.

This unique method of interviewing famous personages was conceived by The Los Angeles Times so that every thought is indelibly preserved forever and comes to you without embellishment in articles bristling with personality and almost brutal in their frankness.

When you read the innermost thoughts of every person on this page in the Annual Pre-view you will be gazing behind the "sets in Hollywood;" you will learn of dramas which have never reached the screen and you will understand the part that genius plays in this great industry of Southern California.

Your friends everywhere could receive no more inspiring message from Hollywood than the fascinating talks in the Annual Pre-view. Don't forget them. Be sure to make a memorandum now to send them the two beautiful magazines in rotogravure. The Pre-view is ten cents, wrapped ready for mailing and will be on sale at all news-stands.

Another feature will be the exclusive photographs throughout this unique edition, many of which will be published for the first time.

Just remember, if there is a question you might want to ask some leader in the motion picture industry, you'll find the answer in the

Los Angeles Times Annual PRE-VIEW

MAY MORNING.

MORTALITY DECLARED
ASSURED BEYOND DOUBTConcerning Life After
Death Offered in Sermon by
Dr. Kerr Boyce Tupper

Tragic history of a California member: Fall; fall; fall.

Huh! In what other world would people be so good if they knew they could escape punishment?

Mental affliction acquires a criminal, but it isn't the criminal's affliction.

Final proof that life is a dream, and that the world is a stage, is the fact that in time to let Babe have the front page again.

Every once in a while you see a woman you suspect of being mad because she can't sing.

It isn't crookedness that makes men rich, son; it's a sense. And smart ones also can sing honestly, without jail.

House cleaning will begin in a hall by the housewife. Get your shin guards now.

The annual price for opera seats to the headline writer is said: "Agents clean up Chicago seven arrested."

Americanism: Demanding personal liberty; wishing you could make that fellow over there have as you want him to.

The activity of the market indicates, among other things, a change in Darwin's vital statistics.

"More highways being built with oil." This seems to be the broad way that leads to destruction.

In this country you can be a political tiger, but in Italy a shirt tells it.

A star of the second magnitude is one you can see with the naked eye.

"Taking a flyer in Wall Street" is much like other flying. A lot of fun if you don't get down too quick.

Perhaps it's called the old ball because all of the old virtues are done up in new balls.

In Africa they hunt big game. Over here the big game is the disturbed and the police who grab the crap-shooter.

South Carolina has appropriated money to advertise its claim that it has edible potatoes. It only lacks the perfecting of some kind of plant to prevent foolhardiness.

Correct this sentence: "Jim said to his wife, 'Drive your Ambassador tomorrow'."

Astronomers say the star Proxima Centauri is probably just another publicity preceding nothing.

Enrico says you can tell when her stage-door number is calling because she puts on shades for his curtain call.

The old wild towns of years ago are quiet now. Men walk to and fro in new hedges for a garden. To close some deal in hillside estate, to buy a silver or a cow—the old wild towns are calm and peaceful.

Merchant princes, old and new, are selling gingham, and erudite and apud, and the erudite in calm array to the checker players who have a new motto on their lips: "I'll bet you can't win."

When the old wild towns were first built, they were built for a purpose. They were built to give a place to the law. It's true, but the law should be given to those who don't have it.

The old wild towns, however, were built for a purpose. They were built to give a place to the law. It's true, but the law should be given to those who don't have it.

NINE COLLEGES TO PICK ORATOR

Southland Champion to Be Chosen Next Week

Coast Finals Will Be Held First Tuesday in May

Better America Federation Contest in Fourth Year

Nine Southern California colleges will battle for the championship of this part of the State on the evening of the 27th inst. in Millsap auditorium, University of California at Los Angeles. In the first-group phase of the Fourth National Intercollegiate Oratorical Contest on the Constitution.

The institutions to be represented and the order in which their speakers will appear on the program follow:

Loyola College, Pomona College, Chaffey Junior College, California Christian College, University of Southern California, University of Redlands, U.C.L.A., Southwestern University and Taft Junior College.

FINALS MAY 8
The winner of the contest the 27th inst. will compete in the finals at Santa Clara, May 8, when the contestants will be representatives of Northern California, Southern California, Oregon, Washington, Montana, Utah and Idaho.

The meeting of May 8 is one of seven national and semi-national meetings to be held during May to determine the seven national finalists who will participate in the national finals to be held in Los Angeles on June 21.

The contest is conducted by the Better America Federation of California and is now in its fourth year upon a national scale. The prize total \$5000, being divided as follows among the seven national finalists: First, \$1500; second, \$1000; third, \$750; fourth, \$500; fifth, \$250; sixth, \$100; and seventh, \$50.

MEETING THIS WEEK
The meetings to determine the seven Southern California colleges will be held this week in the auditoriums of the different institutions.

The meeting to determine the Northern California champion will be held in the auditorium of the College of the Pacific at Stockton, the 27th inst. Speakers from eight Northern California institutions, including the University of California and Leland Stanford, will compete at that time.

FORESTERS TO EXHIBIT FIRE BREAK

Extensive Service Field Trip to Display Method of Conservation

Construction of fire breaks with a ten-ton, especially constructed Caterpillar tractor will be one of the features of the Los Angeles County Forestry Field trip to be held tomorrow. The tour is being sponsored by the Agricultural Extension Service in co-operation with the Los Angeles County Forestry Department.

Many noted experts on forestry, water conservation and flood control will make short talks during the tour, which is scheduled to start at 8 a.m. from the Los Angeles County Reclamation Nursery, Lake and Corcoran streets, Alhambra. From the nursery, the tour will take in Sawpit Dam in Monrovia Canyon and San Dimas Foothill Country Park during the forenoon. At the County Park short speeches will be made on water conservation and forestry by various forestry men from the Federal, State and county bureaus.

A similar water conservation and given at a point east of San Dimas, following which the party will go to San Antonio Canyon, San Jose patrol station, Foothill Ranch, near Azusa, and will end at Michillinda Park, Huntington Drive and Michigan Boulevard.

TWO-MILE PAVING PLAN ADVANCED

Country Club Drive Asks Permanent Improvement in Tenth-Street Project

Steps to improve Country Club Drive, which will be an extension of the Tenth-street project through the heart of the city, were taken when a petition to pave the street with nine-inch permanent pavement was referred by the City Council to the City Engineer for checking.

The section to be improved lies between Rimpas avenue and Robertson Boulevard, a distance of more than two miles. This new paved street will intersect La Brea avenue, Fairfax avenue and La Cienega Boulevard.

A portion of this stretch, between Orange Drive and Houser Boulevard, already is under proceedings. It is being included in the Ninth and Dunsmuir improvement district. The ordinance of intention was passed on March 15.

It is the eventual plan of the city to extend Tenth street and Country Club Drive to a connection with Londoloma avenue, which in turn will be opened and widened to the beaches.

Tenth street, the largest opening and widening proceeding included in the Major Traffic Street Plan of the Traffic Commission, now is well advanced. More than 2000 of the defendants in the condemnation suit have been served, according to Robert Stahl, Deputy City Attorney, who is handling legal work in connection with the project.

As soon as all the defendants have been served the suit will be set for trial and referees appointed.

SINGER LAUDS AMERICAN VOICES

Werrenath, Here For Concert, Says Europe Still Gives Best Opportunities For Training and New Opera Bureau Will Aid Students Going Abroad

Americans have the finest voices potentially of any race in the world, but Europe still remains as the greatest field for training. So declared Reinald Werrenath, concert baritone, who arrived yesterday from Santa Barbara. Mr. Werrenath is accompanied by his bride of two months, Mrs. Verna True Werrenath, and they are guests at the Ambassador.

Mr. Werrenath is one of the organizers of the International Opera Bureau, an enterprise whose feasibility is to be tested during the coming European operatic season.

"To give American singers an opportunity to affiliate themselves with an European operatic company and thereby receive invaluable training,

Mr. and Mrs. Reinald Werrenath

the International Opera Bureau has been organized," said Mr. Werrenath. "Only those singers who show exceptional talent and ability will be accepted."

The bureau has been organized by John T. Adams, New York impresario; his mother, Mrs. Marguerite Adams, and Mr. Werrenath. The bureau has contracts with twenty-six leading European opera-houses guaranteeing a minimum of fifteen appearances a season for those fortunate enough to qualify, Mr. Werrenath said.

At least three scholarships will be available the first year and it is hoped that a number of additional ones may be established annually during the coming years to help those unable to pay their own way, said Mr. Werrenath. The committee on selection of candidates for the European opera companies is composed of Mr. Werrenath as chairman, Alex Ghuk, Louise Homer, Mabel Garrison, Herbert Witherpoon, Lambert Murphy and Toscha Seidel.

Mr. Werrenath will appear tonight in a concert at the Philharmonic Auditorium.

FILM LIGHTS AID SCIENCE OF MEDICINE

New Incandescents Make Possible Photographing of Surgical Operations

Working for its own betterment the cinema may give the science of medicine one of its greatest boons. In developing the new incandescent lighting for studio sets, the studio has made possible for the first time accurate and scientific filming for medical study.

This information has been received by Louis B. Mayer, head of the Metro-Goldwyn-Mayer studios, where incandescent lighting was pioneered, in details of the work being accomplished at Cook County Hospital in Chicago under the direction of the University of Illinois.

"Attempts made heretofore to film surgical operations were usually abortive because of the lack of proper lights, and use of ordinary studio arcs, exuding gases and carbon monoxide, was impossible in operating room or clinic," Mayer said.

"John Arnold, the cameraman who first used incandescent lights in photographing Lillian Gish in 'The Sign of the Cross', a photographed several surgical operations in a Los Angeles hospital but with poor success, under natural light. The new screen lights, even more efficient than surgical lights for surgery, however, permit the camera operator to be used practically."

Dr. Maurice L. Blais, professor of children's diseases at the University of Illinois, is conducting the experiments in the East, Mayer said. "In the practice of medicine," Blais said, "are many diseases with similar characteristics. The fine distinctions between these can be better appreciated with the showing of motion pictures as the lecture proceeds. Many conditions of muscular movement, impossible to describe accurately, lend themselves particularly to such demonstrations."

The ultimate object of the work in Chicago, Mayer was informed, is a library of films illustrating nervous and muscular diseases for scientific study, as well as films of motion pictures for the lecture.

TRAFFIC MANAGER ATTENDS RATE MEET

Los Angeles was represented at a recent meeting in Twin Falls, Idaho, on reduction of railroad rates between Southern Idaho and Southern California by H. R. Brashear, traffic manager of the Chamber of Commerce. Brashear made the trip to Idaho to represent local interests at the hearing which was requested by the Idaho Public Utility Commission. The commission asked at the meeting that lower rates be granted because of the building of the new line from Rogerson, Idaho, to Wells, Nev., which materially shortens the route to California points.

MARSHAL LEAVES FOR EAST WITH PRISONERS

Deputy United States Marshal Yonkin left this city yesterday with three prisoners, to be transported to other States for trial in Federal courts. The prisoners include Elmer Massey, to be taken to Phoenix, Ariz., for trial on a Dyer Act charge; Frederick A. DuPre, wanted at El Paso on a mail-fraud charge; and Albert Looney, wanted in Tennessee on a Federal charge.

Although the \$50,000,000 suit of Charles H. Duell against the Metro-Goldwyn-Mayer Film Corporation, Lillian Gish and others for breach of contract is scheduled for trial Wednesday, Miss Gish will not be present at the trial, having sailed for Europe yesterday.

Norman S. Sterry, counsel for Miss Gish, stated that she has no definite information as to Miss Gish's whereabouts, but that her presence is not required at the trial, as her deposition already has been taken.

PREACHER TO ADDRESS CLUB
Rev. Arthur Edwin Wake will speak at a meeting of the Pot and Kettle Club at noon tomorrow in the Commercial Club Building. Fred B. Bower is to be chairman of the day, and a musical program is to follow the speaking.

RADIO ACTIVITIES

From Broadcasting Stations to Receiving Sets

MANY CONCERNS SPONSOR MUSIC

Good-will Greetings Carry Programs

KHJ Starts the Week With Aerial Talent

Other Items of Broadcast Interest

BY DR. RALPH L. FOWLER
There will be many sponsors on the KHJ programs from the Don Lee station today.

The Pacific States Savings and Loan Company, which is given every Monday between 5 and 6 p.m. in the form of a sunset musicale, will feature the Sunset Serenade, the former quartet with two new members.

The group includes Arthur Brooks, flutist; John Bohnen, clarinet; William Whitmore, bass; Howard Griffin, violin; Ludwig Forst, cello, and Mona Content, pianist.

NEW SERIES
The half-hour broadcast at 7 p.m. will carry with it the good-will greetings of Pacific Wholesale, Inc., distributors of Sparson radio sets, which will be broadcast of a series of week-day half hours at the same time.

For the present these will be in the form of orchestral selections, but when the studio moves over to the Don Lee Building the music will feature organ recitals.

The two-hour broadcast with the Merchants' Ice and Cold Storage Company hour is the second in a series and will feature the Pacific States Savings and Loan Company hour.

FROLIC HOUR
Then the Sundog's frolic will carry on until 10 p.m. with the five o'clock novelty hour, before the microphone.

The Don Lee aerial offerings of the day and night will conclude with the featured program of Paul Burnett's dance orchestra aggregation from the Biltmore between 10 p.m. and midnight.

The last half-hour will be filled with surprise acts furnished by instrumentalists from the purveyors of tinkling dance tunes and dreamy waltz melodies.

Blue Mondays are no more, with such a galaxy of radio stars and a wealth of diversified standard and novelty programs from KHJ and other transmitting media.

RADIO WRITERS GOING TO SCHOOL
PARIS, April 15. (P)—A radio school is to be opened in Paris, where will be lessons for journalists who aspire to become radio writers.

PASADENA PHYSICIST TO ADDRESS RADIO MEN
The Southern California section, University of Redlands, will hold its monthly meeting Monday night with a dinner at 633 South Flower street. The speakers will be Dr. C. G. Burt, research fellow at the California Institute of Technology, speaking on the construction, application and uses of the photoelectric cell.

OHIO STATE QUARTET AT LOCAL BROADCAST STATION
The Ohio University vocal quartet will be featured at 9 p.m. through KFI today in a repertoire of ballads, school songs and comedy numbers of the glee-club type.

COMPOSITE GROUP IN NATIONAL PROGRAM
NEW YORK, April 15. (P)—A broadcast of national interest to school children will be on the air on the 19th inst. through WJZ and stations of the red network when the National High School Orchestra will be the featured group.

The group is composed of 200 boys and girls selected from school orchestras in various parts of the country.

COUNTERFEITING CASE DEFENDANT TO PLEAD TODAY
Robert H. Lawton, a photographer, formerly of Idaho Falls, Idaho, accused in Federal indictment of conspiring to counterfeit \$20 bills, will be arraigned and given time to plead today in United States District Judge McCreary's court. He was arrested in San Diego about the same time that Raymond S. Ost, a printer, of the same Idaho town, was taken into custody in connection with the ascertained plot.

It is charged by the government that the two men made plates in Idaho Falls and then moved to Long Beach, where they are said to have opened a print shop, and to have made the fake bills. Their arrest followed after the investigation by William Ashe, Federal secret service agent in charge here, the result of information given by the arrested plot.

Miss Gish Won't Appear at Trial
Although the \$50,000,000 suit of Charles H. Duell against the Metro-Goldwyn-Mayer Film Corporation, Lillian Gish and others for breach of contract is scheduled for trial Wednesday, Miss Gish will not be present at the trial, having sailed for Europe yesterday.

Norman S. Sterry, counsel for Miss Gish, stated that she has no definite information as to Miss Gish's whereabouts, but that her presence is not required at the trial, as her deposition already has been taken.

PREACHER TO ADDRESS CLUB
Rev. Arthur Edwin Wake will speak at a meeting of the Pot and Kettle Club at noon tomorrow in the Commercial Club Building. Fred B. Bower is to be chairman of the day, and a musical program is to follow the speaking.

Country Property

If you've ever thought of moving out a ways—where you could raise your own chickens, fruit and vegetables—where the air is pure and the nights are still—you will surely be interested in the many kinds of country property that are offered every day in Times Want Ads. There are small tracts—big tracts—valley land—hill land—orchards—poetry ranches—to suit every need.

Want ads may be inserted in The Times by telephone. Courteous ad-takers constantly on duty. Collections are made after your ad has appeared. Telephone Metropolitan 3000.
